

## TREE REGULATIONS (CITY CODE OF SULLY, CHAPTER 151)

No tree shall be planted in any parking or street except in accordance with the following:

1. All trees planted in any street shall be planted in the parking midway between the outer line of the sidewalk and the curb. In the event, a curb line is not established; trees shall be planted on a line 10 feet from the property line.
2. Trees shall not be planted on any parking which is less than 9 feet in width, or contains less than eighty-one square feet of exposed soil surface per tree. Trees shall not be planted closer than 20 feet from street intersections (property lines extended) and 10 feet from driveways. If it is at all possible trees should be planted inside the property lines and not between the sidewalk and the curb.
3. No person shall plant in any street any fruit bearing tree or any tree of the kinds commonly known as cottonwood, poplar, box elder, Chinese elm, evergreen, willow or black walnut.

The property owner shall keep the trees on, or overhanging the street, trimmed so that all branches will be at least 15 feet above the surface of the street and 8 feet above the sidewalks. If the property owner fails to keep trees trimmed, the City may perform the required action and assess the costs against the property.
