(Code of Iowa, Sec. 364.22[3])

4.02 ENVIRONMENTAL VIOLATION. A municipal infraction which is a violation of Chapter 455B of the Code of Iowa or of a standard established by the City in consultation with the Department of Natural Resources, or both, may be classified as an environmental violation. However, the provisions of this section shall not be applicable until the City has offered to participate in informal negotiations regarding the violation or to the following specific violations:

(Code of Iowa, Sec. 364.22 [1])

1. A violation arising from noncompliance with a pretreatment standard or requirement referred to in 40 C.F.R. §403.8.

1. Standard Civil Penalties.
 - A. First Offense - \$100.00
 - B. Second Offense - \$200.00

Each day that a violation occurs or is permitted to exist constitutes a repeat offense.

2. Special Civil Penalties.
 - A. A municipal infraction arising from noncompliance with a pretreatment standard or requirement, referred to in 40 C.F.R. §403.8, by an industrial user is punishable by a penalty of not more than one thousand dollars (\$1,000.00) for each day a violation exists or continues.

B. A municipal infraction classified as an environmental violation is punishable by a penalty of not more than one thousand dollars (\$1,000.00) for each occurrence. However, an environmental violation is not subject to such penalty if all of the following conditions are satisfied:

- (1) The violation results solely from conducting an initial startup, cleaning, repairing, performing scheduled maintenance, testing, or conducting a shutdown of either equipment causing the violation or the equipment designed to reduce or eliminate the violation.
- (2) The City is notified of the violation within twenty-four (24) hours from the time that the violation begins.
- (3) The violation does not continue in existence for more than eight (8) hours.

4.05 ALTERNATIVE RELIEF. Seeking a civil penalty as authorized in this chapter does not preclude the City from seeking alternative relief from the court in the same action. Such alternative relief may include, but is not limited to, an order for abatement or injunctive relief.

(Code of Iowa, Sec. 364.22 [8])

4.06 CRIMINAL PENALTIES. This chapter does not preclude a peace officer from issuing a criminal citation for a violation of this Code of Ordinances or regulation if criminal penalties are also provided for the violation. 8.01 PURPOSE. The purpose of this chapter is to provide for the division of taxes levied on the taxable property in the Urban Renewal Areas of the City each year by and for the benefit of the State, City, County, school districts or other taxing districts after the effective date of the ordinances codified in this chapter in order to create a special fund to pay the principal of and interest on loans, advances or indebtedness, including bonds proposed to be issued by the City, to finance projects in such areas.

8.02 SULLY URBAN RENEWAL AREA. The provisions of this section apply to the Sully Urban Renewal Area, the boundaries of which are set out below, such area having been identified in the Urban Renewal Plan approved by the Council by resolution adopted on November 9, 1992:

All property within the corporate boundaries of the City of Sully, Iowa

The taxes levied on the taxable property in the Sully Urban Renewal Area each year by and for the benefit of the State, the City, the County and any school district or other taxing district in which the such Urban Renewal Area is located, from and after the effective date of Ordinance No. 07-92, shall be divided as follows:

1. That portion of the taxes which would be produced by the rate at which the tax is levied each year by or for each of the taxing districts upon the total sum of the assessed value of the taxable property in the Sully Urban Renewal Area, as shown on the assessment roll as of January 1, 1991, shall be allocated to and when collected be paid into the fund for the respective taxing district as taxes by or for said taxing district into which all other property taxes are paid. For the purpose of allocating taxes levied by or for any taxing district which did not include the territory in the Sully Urban Renewal Area on the effective date of Ordinance No. 07-92, but to which the territory has been annexed or otherwise included after said effective date, the assessment roll as of January 1, 1991, shall be used in determining the assessed valuation of the taxable property in said Sully Urban Renewal Area on the effective date.
2. Unless and until the total assessed valuation of the taxable property in the Sully Urban Renewal Area exceeds the total assessed value of the taxable property in such area as

shown on the assessment roll referred to in Subsection 1 of this section, all of the taxes levied and collected upon the taxable property in the Sully Urban Renewal Area shall be paid into the funds for the respective taxing districts as taxes by or for said taxing districts in the same manner as all other property taxes. When such loans, advances, indebtedness, and bonds, if any, and interest thereon, have been paid, all money thereafter received from taxes upon the taxable property in the Sully Urban Renewal Area shall be paid into the funds for the respective taxing districts in the same manner as taxes on all other property.

3. The portion of taxes mentioned in Subsection 2 of this section and the special fund into which that portion shall be paid may be irrevocably pledged by the City for the payment of the principal and interest on loans, advances, bonds issued under the authority of Section 403.9[1] of the *Code of Iowa*, or indebtedness incurred by the City to finance or refinance in whole or in part projects in the Sully Urban Renewal Area.

36.01 PURPOSE. In order to reduce the danger to public health, safety and welfare, these regulations are promulgated to establish responsibility for the treatment, removal and cleanup of hazardous materials leaks and spills within the City limits.

36.02 DEFINITIONS. For purposes of this chapter the following terms are defined:

1. “Cleanup” means actions necessary to contain, collect, control, identify, analyze, clean up, treat, disperse, remove or dispose of a hazardous substance or waste, and restoration of the affected environment.

(Code of Iowa, Sec. 455B.381[1])

2. “Hazardous condition” means any situation involving the actual, imminent or probable spillage, leakage, or release of a hazardous substance or hazardous waste onto the land, into a water of the State or into the atmosphere which creates an immediate or potential danger to the public health or safety or to the environment.

(Code of Iowa, Sec. 455B.381[4])

3. “Hazardous substance” means any substance or mixture of substances that presents a danger to the public health or safety and includes, but is not limited to, a substance that is toxic, corrosive, or flammable, or that is an irritant or that generates pressure through decomposition, heat, or other means. “Hazardous substance” may include any hazardous waste identified or listed by the administrator of the United States Environmental Protection Agency under the Solid Waste Disposal Act of 1976, or any toxic pollutant listed under subsection 307 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous substance designated under Section 311 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous material designated by the Secretary of Transportation under the Hazardous Materials Transportation Act.

(Code of Iowa, Sec. 455B.381[5])

4. “Hazardous waste” means those wastes which are included by the definition in Section 455B.411(3) of the Code of Iowa. In brief, a hazardous waste means a waste or combination of wastes that, because of its quantity, concentration, biological degradation, leaching from precipitation or physical, chemical or infectious characteristics, has either of the following effects:

A. Causes or significantly contributes to an increase in mortality or an increase in serious irreversible or incapacitating reversible illness.

B. Poses a substantial danger to human health or the environment.

“Hazardous waste” may include, but is not limited to wastes that are toxic, corrosive or flammable or irritants, strong sensitizers or explosives. It does not include (a) agricultural wastes, including manures and crop residues that are returned to the soil

as fertilizers or soil conditioners; or (b) source, special nuclear or by-product material as defined in the Atomic Energy Act of 1954, as amended to January 1, 1979.

(Code of Iowa, Sec. 455B.411[3])

5. “Person” means an individual, corporation, firm, government or governmental subdivision or agency, business trust, estate, trust, partnership or association, or any other legal entity.

6. “Responsible person” means a person who at any time produces, handles, stores, uses, transports, refines, or disposes of a hazardous substance or hazardous waste, the release of which creates a hazardous condition, including bailees, carriers, and any other person in control of a hazardous substance or waste when a hazardous condition occurs, whether the person owns the hazardous substance or waste, or is operating under a lease, contract, or other agreement with the legal owner of the hazardous substance or waste.

(Code of Iowa, Sec. 455B.381[7])

7. “Treatment” means a method, technique or process, including neutralization, designed to change the physical, chemical or biological character or composition of a hazardous substance so as to neutralize it or to render the substance non-hazardous, safe for transport, amenable for recovery, amendable for storage or to reduce it in volume. “Treatment” includes any activity or processing designed to change the physical form or chemical composition of hazardous substance to render it non-hazardous.

36.03 CLEANUP REQUIRED.

1. Whenever a hazardous condition is created so that a hazardous substance or waste or a constituent of the hazardous waste or substance may enter the environment or be emitted into the air or discharged into any waters, including ground waters, the responsible person shall cause the condition to be remedied by a cleanup, as defined in the preceding section, as rapidly as feasible to an acceptable, safe condition, and restore the affected area to its state prior to the hazardous condition as far as practicable. The cost of cleanup shall be borne by the responsible person.

2. If the responsible person does not cause the cleanup to begin in a reasonable time in relation to the hazard and circumstances of the incident, the City may, by an authorized officer, give reasonable notice, based on the character of the hazardous condition, setting a deadline for commencing and accomplishing the cleanup or the City may proceed to procure cleanup services and bill the responsible person for all associated costs.

3. In the event that it is determined that immediate cleanup is necessary as a result of the present danger to the public health, safety and welfare, then no notice shall be required and the City may proceed to procure the cleanup and bill the responsible person for all costs associated with the cleanup.

4. If the bill for those services is not paid within thirty (30) days, the City Attorney shall proceed to obtain payment by all legal means. If the cost of the cleanup is beyond the capacity of the City to finance it, the authorized officer shall report to the Mayor or Mayor Pro Tem and so advise that the City immediately seek any State or Federal funds available for said cleanup.

36.04 LIABILITY FOR CLEANUP COSTS. The responsible person shall be strictly liable to the City for all of the following:

1. The reasonable cleanup costs incurred by the City or the agents of the City as a result of the failure of the responsible person to clean up a hazardous substance involved in a hazardous condition.
2. The reasonable costs incurred by the City or the agents of the City to evacuate people from the area threatened by a hazardous condition caused by the person.
3. The reasonable damages to the City for the injury to, destruction of, or loss of City property, including parks and roads, resulting from a hazardous condition caused by that person, including the costs of assessing the injury, destruction or loss.
4. The excessive and extraordinary cost incurred by the City or the agents of the City in responding at and to the scene of a hazardous condition caused by that person.

36.05 NOTIFICATIONS.

1. A person manufacturing, storing, handling, transporting, or disposing of a hazardous substance or waste or any other person who discovers a hazardous condition shall notify the Jasper County Dispatcher of the occurrence of a hazardous condition as soon as possible.
 - A. Notification shall be as immediate as is humanly possible and available communications allow if the hazardous condition exposes any of the population of the City or County to immediate danger or potential escalation of danger in the near future.
 - B. If the hazardous condition is not immediately life threatening the notification should proceed as soon as possible but not later than six (6) hours after the onset of the hazardous condition or its discovery.
2. The person or persons responsible for the spilled or released hazardous substance or waste shall, on their own initiative, fulfill the requirements of State law for notification of the State Emergency Response Commission through the Department of Natural Resources.
 - A. The responsible person shall make contact with the Department of Natural Resources for the spill or release notification. Notification of the local emergency planning committee through the County dispatcher constitutes local notification only.
 - B. Any contact by the County dispatcher or other City or County officials or authorities with the Department of Natural Resources does not constitute, imply, convey or carry any notification of the State authorities for the responsible person.

36.06 LAW ENFORCEMENT AUTHORITY. If the circumstances reasonably so require, the Sheriff or the officers of the Sheriff's Department, the County emergency program manager, the Mayor, any Council person, or the Fire Chief may:

1. Evacuate persons from their homes to areas away from the site of a hazardous condition, and
2. Establish perimeters or other boundaries at or near the site of a hazardous condition and limit access to the site to emergency personnel, including cleanup personnel, for as long as deemed necessary by either the incident commander or the Sheriff.

3. Impound any vehicle or carrier of hazardous materials involved in a spill or release until such time that legally binding assurances have been received from the carrier or manufacturer assuming full responsibility for all the costs of the cleanup of the damage caused and the restoration of the environment.

No person shall disobey any lawful order issued by the Sheriff, Sheriff's deputies or other law enforcement or peace officer involved in the incident.

36.07 LIABILITY. The City shall not be liable to any person for claims of damages, injuries, or losses resulting from any hazardous condition, unless the City is the responsible person as defined in Section 36.02(6).

36.08 VIOLATION. Each day that a violation of this chapter occurs shall constitute a separate offense.

7. Innocence of an Owner. The innocence of an owner, or of anyone in control of the object, as to a direct violation of the Uniform Controlled Substances Act, Chapter 124 of the Code of Iowa, should not prevent a finding that the object is intended for use or designed for use as drug paraphernalia.
8. Instructions. Instructions, oral or written, provided with the object concerning its use.
9. Descriptive Materials. Descriptive materials accompanying the object which explain or depict its use.
10. Advertising. National and local advertising concerning its use.

NOISE CONTROL

48.01 Purpose	48.05 Vehicle Noise Limits
48.02 Definitions	48.06 Engine Back-Pressure Brakes Prohibited
48.03 Measurement of Noise and Sound	48.07 Permits
48.04 Test Measurement and Requirements for Determining National Classification of Sound	48.08 Exemptions
	48.09 Penalties

48.01 PURPOSE. The purpose of this chapter is to prevent excessive sound, which is a serious hazard to the public health and the quality of life in the City.

48.02 DEFINITIONS. All terminology used in this chapter and not defined below shall be in conformance with applicable publications of the American National Standards Institute (ANSI) or its successor body.

1. "A or C weighted sound level (sound level)" means the sound pressure level in decibels as measured on a sound level meter using the A or C weighting network. The level so read shall be designated dB(A) or dBA, or dB(C) or dBC.
2. "Decibel" means a logarithmic and dimensionless unit of measure often used in describing the amplitude of sound. Decibel is denoted as dB.
3. "Emergency work" means work made necessary to restore property to a safe condition following a public calamity, work to restore public utilities, or work required to protect persons and property from an imminent danger.
4. "Emergency vehicle" means a motor vehicle used in response to a public calamity or to protect persons and property from imminent danger.
5. "Exhaust system" means the device or combination of devices that collects the exhaust from the engine or motor, delivers the exhaust to the atmosphere, and reduces the noise emissions. Exhaust system includes manifold or headers, exhaust pipe, muffler, and tail pipe.
6. "Gross vehicle weight" means the value specified by the manufacturer as the loaded weight of a vehicle.
7. "Motor vehicle" means every vehicle which is self propelled.
8. "Sound" means a temporal and spatial oscillation in pressure, or other physical quantity, in a medium with internal forces that causes compression and rarefaction of that medium, and which propagates at finite speed to distant points.
9. "Sound level meter" means an instrument, including a microphone, amplifier, output meter and weighting networks, that is sensitive to pressure fluctuations. The output meter reads sound pressure level in decibels when properly calibrated and the instrument is of Type 2 or better as specified in American National Standards Institute Publication S1 4-1971, or its successor publication.

48.03 MEASUREMENT OF NOISE AND SOUND. The measurement of sound or noise shall be made with a sound level meter meeting the standards prescribed by the American National Standards Institute. The instruments shall be maintained in calibration and good

working order. A calibration check shall be made of the system at the time of any noise measurement. Measurements recorded shall be taken so as to provide a proper representation of the noise source. The microphone during the measurement shall be positioned so as not to create any unnatural enhancement or diminution of the measured voice. A windscreen for the microphone shall be used when required. The measurement shall be an A weighted or C weighted sound level.

48.04 TEST MEASUREMENT AND REQUIREMENTS FOR DETERMINING NATIONAL CLASSIFICATION OF SOUND.

1. No person shall engage or participate in the making and creating of an excessive or unusually loud sound within the city heard and measured in the manner prescribed below, except when done under and in compliance with a permit issued pursuant to this chapter.
2. It shall be the duty of persons in a position of ownership, possession or control of premises to prevent such premises from being the site of activities producing sound levels in excess of what is permitted under this chapter. Failure or refusal to perform such duty shall constitute a violation of this section.
3. It shall be the duty of persons in positions or leadership or responsibility with respect to unincorporated associations, groups, gatherings and assemblages of people to prevent such from causing or making sound levels in excess of what is permitted under this chapter. Failure or refusal to perform such duty shall constitute a violation of this section.
4. For the purpose of determining and classifying any sound as excessive or unusually loud, the following test measurements and requirements are to be applied:
 - A. The sound shall be measured at the edge of the City street or alley right-of-way reasonably appearing to be to the source of the sound. When a complaint is received, a measurement may also be taken at the location on the property where the complaining party was disturbed.
 - B. The sound shall be measured on a sound level meter of standard design and quality operated in an “A” or “C” weighting scale.
 - C. A sound measured or registered in excess of the maximum permitted levels according to the following table, is declared to be excessive and unusually loud and is unlawful.

Neighborhood Characteristic	Maximum dB Permitted
Residential	65 between 7:00 a.m. and midnight; 55 between midnight and 7:00 a.m.
Commercial	70
Industrial	75
Park or Agriculture	65

48.05 VEHICLE NOISE LIMITS. It is unlawful for any person or owner to cause or permit to be operated within the public right-of-way in the City any motor vehicle which emits a noise in excess of the dB(A) or dB(C) level established in this section.

1. The maximum allowable noise levels for motor vehicles shall be 75 dB(A) or 75 dB(C) measured at a distance of twenty-five feet.

2. This section applies to the total noise from a motor vehicle and shall not be construed as limiting and precluding the enforcement of any other provisions of this chapter and includes radios, cassette players, disk players, sound amplification systems and similar devices associated with motor vehicles.
3. The sound shall be measured on a sound level meter of standard design and quality operated on the "A" or "C" weighting scale.

48.06 ENGINE BACK-PRESSURE BRAKES PROHIBITED. No person operating a motor vehicle within the City shall use an engine back-pressure braking system or mechanical exhaust device designed to aid in the braking or deceleration of the motor vehicle.

48.07 PERMITS. Applications for a permit for relief from the provisions up to an additional 5dB(A) and dB(C) of this chapter may be made to the law enforcement officer or a duly authorized representative, pursuant to the following procedure:

1. All permits must be applied for in writing during normal business hours stating what devices are to be employed, where they are to be employed, on what dates and at what times of day they are to be used, the nature of the sounds to be produced or amplified and the number of people in attendance, and the persons responsible for the activity.
2. Permits granted shall state with reasonable specificity the date, location, time, nature of the sound, devices permitted, number of people in attendance, and the persons responsible for the activity.
3. Permits shall not be arbitrarily or unreasonably withheld nor shall the free expression of ideas or lawful speech be restrained, but sound and noise producing conduct having no communicative value and serving only to unreasonably disturb and disrupt the enjoyment of residences and normal pursuits shall be restrained.
4. The law enforcement officer or designee may prescribe any conditions or requirements deemed necessary to minimize adverse effects upon the community or the surrounding neighborhood.

48.08 EXEMPTIONS. The requirements, prohibitions, and terms of this chapter shall not apply to emergency work or to any authorized emergency vehicle, when responding to an emergency call or acting in time of emergency. The terms of this section shall not apply to those activities of a temporary duration, permitted by law including but not limited to parades, fireworks displays, outdoor warning systems, nonprofessional athletic contests, all construction work and all other authorized activities occurring on government property.

48.09 PENALTIES.

1. A violation of any provision of this chapter shall be a municipal infraction.
2. Alternatively, a violation of any provision of this chapter can be charged by a peace officer of the City as a simple misdemeanor.

50.05 NUISANCE ABATEMENT.  - A. Description of Nuisance. A description of what constitutes the nuisance.

† **EDITOR'S NOTE:** A suggested form of notice for the abatement of nuisances is included in the Appendix of this Code of Ordinances. Caution is urged in the use of this administrative abatement procedure, particularly where cost of abatement is more than minimal or where there is doubt as to whether or not a nuisance does in fact exist. If compliance is not secured following notice and hearings, we recommend you review the situation with your attorney before proceeding with abatement and assessment of costs. Your attorney may recommend proceedings in court under Chapter 657 of the *Code of Iowa* rather than this procedure.

- B. Location of Nuisance. The location of the nuisance.
- C. Acts Necessary to Abate. A statement of the act or acts necessary to abate the nuisance.
- D. Reasonable Time. A reasonable time within which to complete the abatement.
- E. Assessment of City Costs. A statement that if the nuisance or condition is not abated as directed and no request for hearing is made within the time prescribed, the City will abate it and assess the costs against the property owner.

(Code of Iowa, Sec. 364.12[3h])
3. Request for Hearing. Any person ordered to abate a nuisance may have a hearing with the Council as to whether a nuisance exists. A request for a hearing must be made in writing and delivered to the Clerk within the time stated in the notice, or it will be conclusively presumed that a nuisance exists and it must be abated as ordered. The hearing will be before the Council at a time and place fixed by the Council. The findings of the Council shall be conclusive and, if a nuisance is found to exist, it shall be ordered abated within a reasonable time under the circumstances.
4. Abatement in Emergency. If it is determined that an emergency exists by reason of the continuing maintenance of the nuisance or condition, the City may perform any action that may be required under this chapter without prior notice. The City shall assess the costs as provided in subsection 6 of this section after notice to the property owner under the applicable provisions of subsection 1 and 2, and the hearing as provided in subsection 3.
(Code of Iowa, Sec. 364.12[3h])
5. Abatement by City. If the person notified to abate a nuisance or condition neglects or fails to abate as directed, the City may perform the required action to abate, keeping an accurate account of the expense incurred. The itemized expense account shall be filed with the Clerk, who shall pay such expenses on behalf of the City.
(Code of Iowa, Sec. 364.12[3h])
6. Collection of Costs. The Clerk shall send a statement of the total expense incurred by certified mail to the property owner who has failed to abide by the notice to abate, and if the amount shown by the statement has not been paid within one month, the Clerk shall certify the costs to the County Treasurer and such costs shall then be collected with, and in the same manner as, general property taxes.
(Code of Iowa, Sec. 364.12[3h])
7. Installment Payment of Cost of Abatement. If the amount expended to abate the nuisance or condition exceeds five hundred dollars (\$500.00), the City may permit the assessment to be paid in up to ten (10) annual installments, to be paid in the same manner and with the same interest rates provided for assessments against benefited property under State law.
(Code of Iowa, Sec. 364.13)

8. Failure to Abate. Any person causing or maintaining a nuisance who shall fail or refuse to abate or remove the same within the reasonable time required and specified in the notice to abate is in violation of this Code of Ordinances.

55.07 RABIES SUSPECT.

1. Any rabies-suspected animal shall be securely and separately confined for observation for a period of ten (10) days. The confinement and observation shall be at the City Animal Shelter or other designated facility. The owner must immediately surrender the rabies-suspect animal to the City employee designated as the Animal

Control Officer. Any person failing to surrender a rabies-suspected animal, or any person removing the rabies-suspected animal from the City limits is guilty of a simple misdemeanor offense. If, upon examination by a veterinarian, the animal has no signs of rabies at the end of the impoundment period, it may be released to the owner or, in the case of the stray, it shall be disposed of in accordance with applicable laws. In either event, the veterinarian shall make a written report of the disposition of the animal to the City Animal Control Officer. At the end of the ten (10) days observation period, the Animal Control Officer shall notify any person bitten by a rabies suspected animal whether such animal exhibited symptoms or indications of rabies. If, within the period of impoundment, the animal dies or exhibits symptoms or indications of rabies, it shall be examined by a veterinarian for clinical diagnosis and the properly euthanized by a veterinarian. The head of any rabies-suspected animal which dies shall be submitted to the State Health Department Laboratory for confirmation of diagnosis. In this event, the City Animal Control Officer shall immediately notify any person bitten of the diagnosis.

2. Any domestic dog, cat, or ferret which is not effectively immunized against rabies virus encephalitis and is exposed to rabies through a rabid animal shall be euthanized immediately by the veterinarian in charge, Animal Control Officer or a designated agent in a manner which will preserve the head for analysis; or such non-immunized, rabies-suspected 9 exposed dog, cat, or ferret shall be strictly quarantined and observed in a veterinary hospital for a period of not less than six (6) months, and such animal shall be immunized against rabies at least thirty (30) days prior to release. Expenses for quarantine and immunization shall be borne by the owner or other person responsible for the animal.

3. If the owner of a non-immunized animal bitten by a rabid animal is unwilling to euthanize the bitten animal, then at the expense of the owner, the animal shall be confined in isolation in a veterinary hospital for a period of not less than six (6) months. The owner of any non-immunized domestic animal other than a dog, cat or ferret which has been exposed to a rabid animal shall immediately report with such domestic animal to the City Animal Control Officer for instruction concerning the disposition of that animal. Any effectively immunized domestic animal which is exposed to a rabid animal shall be immediately re-immunized and restrained by leashing and/or confined on the premises of its owner or in a veterinary hospital for a period of forty-five (45) days.

55.08 VICIOUS ANIMAL. It shall be the duty of the City Animal Control Officer or designee to investigate any proper claim that an animal is vicious within the meaning of this chapter. Should the investigating official determine that a vicious animal poses an immediate threat to the public health or safety, the Animal Control Officer or designee shall also file and serve a uniform complaint citation for violation of the appropriate City ordinance against any person for harboring a vicious animal or file a municipal infraction. If the court shall fail to find, upon a preponderance of the evidence presented in an evidentiary hearing, that the animal seized and impounded is a vicious animal, then the court shall order the Animal Control Officer to return the animal to its owner. If such animal is found by the court to be a vicious animal, the court may order the City Animal Control Officer or designee to euthanize the animal.

55.09 ANIMAL NUISANCE.

1. It shall be the duty of the City Animal Control Officer or designee to investigate any proper claim that an animal is a nuisance within the meaning of this chapter. Should the investigating official determine that a nuisance exists and it is necessary to abate the nuisance or should the official have reason to believe a threat to public health or safety exists, the City Animal Control Office shall file and serve a municipal infraction and request an order from the court that the animal be impounded. Following the filing of such verified complaint and an evidentiary hearing, if the court finds upon a preponderance of the evidence that a nuisance existed, the court may order the animal euthanized as in the case of a vicious animal. Following the filing of such municipal infraction and an evidentiary hearing, if the court finds upon a preponderance of the evidence that a nuisance existed, the court may order the animal euthanized as in the case of a vicious animal. In lieu of ordering the animal euthanized, the court may, at the request of the animal owner, require that the owner abate and prevent such nuisance and give a good and sufficient bond within three (3) days, in an amount not great than five hundred dollars (\$500.00), 10 satisfactory for a period not exceeding one (1) year. In this event, the court may order the return of such animal to the owner. However, during the pendency of such bond, upon a finding of the court that the nuisance has recurred, the court shall order the animal be impounded, euthanized, and the owner's bond to be forfeited. If the court shall find that no nuisance existed, the court shall order the animal be surrendered to the owner. The bond request amount can be increased by resolution of the City Council.

2. Nothing in this section shall be construed to permit the release from impoundment of any animal not properly vaccinated, or a threat to public health and safety.

3. It is lawful for an Animal Control Officer or peace officer to destroy, if necessary, any animal found at large which cannot be captured. It shall be lawful for any person to kill a dog when the dog is caught in the act of worrying, chasing, maiming, or killing any domestic animal or fowl, or when such dog is attacking or attempting to bite a person.

4. Animals Not Reclaimed Within Time Limits. Animals not reclaimed within the time limits set forth in this section shall, at the option of the City Animal Control Officer or designee, be euthanized or disposed of in one of the following manners:

 - C. Release to Veterinarian. The City Animal Control Officer or designee may, at his discretion, release animals to a licensed veterinarian if the animal is in need of veterinary care. The veterinarian must agree in writing to accept responsibility for the animal and give the animal proper veterinarian care in lieu of paying fees to receive the animal.
5. Fees for Treatment of Sick Animals. In addition to all other fees, the owner of a sick or injured animal impounded by the City Animal Control Officer or designee shall reimburse the City of Sully or a veterinarian for any fees incurred in treating the animal before the animal will be released.
6. Destruction of Animals. The City Animal Control Officer or designee may euthanize any animal if it has been surrendered to the shelter or if the animal is so sick, wounded, maimed, diseased, or injured that its cure is considered by the City Animal Control Officer or designee to be impracticable or if death is imminent, and in either of such events, such destruction may be done immediately without notice or any waiting period. Anyone surrendering an animal shall provide proof of his or her identity before the animal will be accepted.

55.11 POLICE DOGS AND DOGS TRAINED TO GUIDE THE BLIND AND HEARING IMPAIRED AND SUPPORT SERVICE DOGS FOR PEOPLE WITH DISABILITIES. If the dog is vaccinated as herein provided, it shall be lawful for any dog trained to guide any blind or hearing-impaired person, or for any support service dog for people with disabilities, or for any police dog owned and use by law enforcement as a police dog to be admitted to any public place or vehicle when actually accompanying a blind or hearing-impaired person or person with a disability, or when utilized as a police dog, when the blind, hearing-impaired, or disabled person, or the officer accompanying the dog might have the lawful right to entry.

55.12 UNLAWFUL REMOVAL. Every person who shall take out or attempt to take out of the animal shelter or any designated animal shelter property any animals located therein without paying the fees prescribed by this chapter shall be deemed guilty of a simple misdemeanor offense, or be prosecuted for a municipal infraction violation.

 - B. A vehicle that has remained illegally on public property for more than twenty-four (24) hours.
 - C. A vehicle that has been unlawfully parked or placed on private property without the consent of the owner or person in control of the property for more than twenty-four (24) hours.

 - E. Any vehicle parked on the highway determined by a police authority to create a hazard to other vehicle traffic.
 - F. A vehicle that has been impounded pursuant to Section 321J.4B of the Code of Iowa by order of the court and whose owner has not paid the impoundment fees after notification by the person or agency responsible for carrying out the impoundment order.
2. “Demolisher” means a person licensed under Chapter 321H of the Code of Iowa whose business it is to convert a vehicle to junk, processed scrap or scrap metal, or otherwise to wreck, or dismantle vehicles.
3. “Garage keeper” means any operator of a parking place or establishment, motor vehicle storage facility, or establishment for the servicing, repair, or maintenance of motor vehicles.
4. “Police authority” means the Iowa state patrol or any law enforcement agency of a county or city.

80.02 AUTHORITY TO TAKE POSSESSION OF ABANDONED VEHICLES. A police authority, upon the authority’s own initiative or upon the request of any other authority having the duties of control of highways or traffic, shall take into custody an abandoned vehicle on public property and may take into custody any abandoned vehicle on private property. The police authority may employ its own personnel, equipment, and facilities or

hire a private entity, equipment, and facilities for the purpose of removing, preserving, storing, or disposing of abandoned vehicles. A property owner or other person in control of private property may employ a private entity that is a garage keeper to dispose of an abandoned vehicle, and the private entity may take into custody the abandoned vehicle without a police authority's initiative. If a police authority employs a private entity to dispose of abandoned vehicles, the police authority shall provide the private entity with the names and addresses of the registered owners, all lienholders of record, and any other known claimant to the vehicle or the personal property found in the vehicle.

(Code of Iowa, Sec. 321.89[2])

80.03 NOTICE BY MAIL.

1. A police authority or private entity that takes into custody an abandoned vehicle shall send notice by certified mail that the vehicle has been taken into custody no more than 20 days after taking custody of the vehicle. Notice shall be sent to the last known address of record of the last known registered owner of the vehicle, all lienholders of record, and any other known claimant to the vehicle.
2. Notice shall be deemed given when mailed. The notice shall include all of the following:
 - A. A description of the year, make, model, and vehicle identification number of the vehicle.
 - B. The location of the facility where the vehicle is being held.
 - C. Information for the persons receiving the notice of their right to reclaim the vehicle and personal property contained therein within 10 days after the effective date of the notice. Persons may reclaim the vehicle or personal property upon payment of all towing, preservation, and storage charges resulting from placing the vehicle in custody and upon payment of the costs of the notice required pursuant to this section.
 - D. A statement that failure of the owner, lienholders, or claimants to exercise their right to reclaim the vehicle or personal property within the time provided shall be deemed a waiver by the owner, lienholders, and claimants of all right, title, claim, and interest in the vehicle or personal property.
 - E. A statement that failure to reclaim the vehicle or personal property is deemed consent for the police authority or private entity to sell the vehicle at a public auction or dispose of the vehicle to a demolisher and to dispose of the personal property by sale or destruction.
3. If the abandoned vehicle was taken into custody by a private entity without a police authority's initiative, the notice shall state that the private entity may claim a garage keeper's lien as described in Section 321.90, Subsection 1, of the *Code of Iowa*, and may proceed to sell or dispose of the vehicle.
4. If the abandoned vehicle was taken into custody by a police authority or by a private entity hired by a police authority, the notice shall state that any person claiming rightful possession of the vehicle or personal property who disputes the planned disposition of the vehicle or personal property by the police authority or private entity or of the assessment of fees and charges provided by this section may ask for an evidentiary hearing before the police authority to contest those matters.

5. If the persons receiving notice do not ask for a hearing or exercise their right to reclaim the vehicle or personal property within the 10-day reclaiming period, the owner, lienholders, or claimants shall no longer have any right, title, claim, or interest in or to the vehicle or the personal property.

6. A court in any case in law or equity shall not recognize any right, title, claim, or interest of the owner, lienholders, or claimants after the expiration of the 10-day reclaiming period.

7. If it is impossible to determine with reasonable certainty the identities and addresses of the last registered owner and all lienholders, notice by one publication in one newspaper of general circulation in the area where the vehicle was abandoned shall be sufficient to meet all requirements of notice under Subsection 2 of this section. The published notice may contain multiple listings of abandoned vehicles but shall be published within the same time requirements and contain the same information as prescribed for mailed notice in Subsection 2 of this section.

(Code of Iowa, Sec. 321.89[3])

(Section 80.03 – Ord. 1130 – Sep. 21 Supp.)

80.04 RECLAMATION OF ABANDONED VEHICLES. Prior to driving an abandoned vehicle away from the premises, a person who received or who is reclaiming the vehicle on behalf of a person who received notice under Section 80.03 shall present to the police authority or private entity, as applicable, the person's valid driver's license and proof of financial liability coverage as provided in Section 321.20B of the *Code of Iowa*.

(Code of Iowa, Sec. 321.89[3a])

(Section 80.04 – Ord. 1130 – Sep. 21 Supp.)

80.05 FEES FOR IMPOUNDMENT. The owner, lienholder or claimant shall pay three dollars (\$3.00) if claimed within five (5) days of impounding, plus one dollar (\$1.00) for each additional day within the reclaiming period plus towing charges, if stored by the City, or towing and storage fees, if stored in a public garage, whereupon said vehicle shall be released. The amount of towing charges, and the rate of storage charges by privately owned garages, shall be established by such facility.

(Code of Iowa, Sec. 321.89[3a])

80.06 DISPOSAL OF ABANDONED VEHICLES. If an abandoned vehicle has not been reclaimed as provided herein, the police authority or private entity shall make a determination as to whether or not the motor vehicle should be sold for use upon the highways, and shall dispose of the motor vehicle in accordance with State law.

(Code of Iowa, Sec. 321.89[4])

80.07 DISPOSAL OF TOTALLY INOPERABLE VEHICLES. The City or any person upon whose property or in whose possession is found any abandoned motor vehicle, or any person being the owner of a motor vehicle whose title certificate is faulty, lost or destroyed, may dispose of such motor vehicle to a demolisher for junk, without a title and without notification procedures, if such motor vehicle lacks an engine or two (2) or more wheels or other structural part which renders the vehicle totally inoperable. The police authority shall give the applicant a certificate of authority. The applicant shall then apply to the County Treasurer for a junking certificate and shall surrender the certificate of authority in lieu of the certificate of title.

(Code of Iowa, Sec. 321.90[2e])

80.08 PROCEEDS FROM SALES. Proceeds from the sale of any abandoned vehicle shall be applied to the expense of auction, cost of towing, preserving, storing and notification required, in accordance with State law. Any balance shall be held for the owner of the motor vehicle or entitled lienholder for ninety (90) days, and then shall be deposited in the State Road Use Tax Fund. Where the sale of any vehicle fails to realize the amount necessary to meet costs the police authority shall apply for reimbursement from the Department of Transportation.

(Code of Iowa, Sec. 321.89[4])

80.09 DUTIES OF DEMOLISHER. Any demolisher who purchases or otherwise acquires an abandoned motor vehicle for junk shall junk, scrap, wreck, dismantle or otherwise demolish such motor vehicle. A demolisher shall not junk, scrap, wreck, dismantle or demolish a vehicle until the demolisher has obtained the junking certificate issued for the vehicle.

90.01 DEFINITIONS. The following terms are defined for use in the chapters in this Code of Ordinances pertaining to the Water Service System:

1. "Combined service account" means a customer service account for the provision of two or more utility services.
2. "Customer" means, in addition to any person receiving water service from the City, the owner of the property served, and as between such parties the duties, responsibilities, liabilities and obligations hereinafter imposed shall be joint and several. Each location, building, premises, dwelling unit or connection shall be considered a separate and distinct customer whether owned or controlled by the same person or not.

4. "Water main" means a water supply pipe provided for public or community use.
5. "Water service pipe" means the pipe from the water main to the building served.
6. "Water system" or "water works" means all public facilities for securing, collecting, storing, pumping, treating and distributing water.

90.02 SUPERINTENDENT'S DUTIES. The Superintendent shall supervise the installation of water service pipes and their connection to the water main and enforce all regulations pertaining to water services in the City in accordance with this chapter. This chapter shall apply to all replacements of existing water service pipes as well as to new ones. The Superintendent shall make such rules, not in conflict with the provisions of this chapter, as may be needed for the detailed operation of the water system, subject to the approval of the Council. In the event of an emergency the Superintendent may make temporary rules for the protection of the system until due consideration by the Council may be had.

(Code of Iowa, Sec. 372.13[4])

90.03 MANDATORY CONNECTIONS. All residences and business establishments within the City limits intended or used for human habitation, occupancy or use shall be

connected to the public water system, if it is reasonably available and if the building is not furnished with pure and wholesome water from some other source.

90.04 ABANDONED CONNECTIONS. When an existing water service is abandoned or a service is renewed with a new tap in the main, all abandoned connections with the mains shall be turned off at the corporation stop and made absolutely watertight.

90.05 PERMIT. Before any person makes a connection with the public water system, a written permit must be obtained from the City. The application for the permit shall include a legal description of the property, the name of the property owner, the name and address of the person who will do the work, and the general uses of the water. If the proposed work meets all the requirements of this chapter and if all fees required under this chapter have been paid, the permit shall be issued. Work under any permit must be completed within sixty (60) days after the permit is issued, except that when such time period is inequitable or unfair due to conditions beyond the control of the person making the application, an extension of time within which to complete the work may be granted. The permit may be revoked at any time for any violation of these chapters.

90.06 CONNECTION CHARGE. Before any permit is issued, the person who makes the application shall pay a connection charge in an amount determined by resolution of the Council.

(Code of Iowa, Sec. 384.84)

90.07 COMPLIANCE WITH PLUMBING CODE. The installation of any water service pipe and any connection with the water system shall comply with all pertinent and applicable provisions, whether regulatory, procedural or enforcement provisions, of the *State Plumbing Code*.

90.08 PLUMBER REQUIRED. All installations of water service pipes and connections to the water system shall be made by a State-licensed plumber.

90.09 EXCAVATIONS. All trench work, excavation, and backfilling required in making a connection shall be performed in accordance with the *State Plumbing Code* and the provisions of Chapter 135 of this Code of Ordinances.

90.10 TAPPING MAINS. All taps into water mains shall be made by or under the direct supervision of the Superintendent and in accord with the following:

(Code of Iowa, Sec. 372.13[4])

1. Independent Services. No more than one house, building or premises shall be supplied from one tap unless special written permission is obtained from the Superintendent and unless provision is made so that each house, building or premises may be shut off independently of the other.
2. Sizes and Location of Taps. All mains six (6) inches or less in diameter shall receive no larger than a three-fourths (3/4) inch tap. All mains of over six (6) inches in diameter shall receive no larger than a one inch tap. Where a larger connection than a one inch tap is desired, two (2) or more small taps or saddles shall be used, as the Superintendent shall order. All taps in the mains shall be made in the top half of the pipe, at least eighteen (18) inches apart. No main shall be tapped nearer than two (2) feet of the joint in the main.

3. Corporation Stop. A brass corporation stop, of the pattern and weight approved by the Superintendent, shall be inserted in every tap in the main. The corporation stop in the main shall be of the same size as the service pipe.
4. Location Record. An accurate and dimensional sketch showing the exact location of the tap shall be filed with the Superintendent in such form as the Superintendent shall require.

90.11 INSTALLATION OF WATER SERVICE PIPE. Water service pipes from the main to the meter setting shall be Type K copper. The use of any other pipe material for the service line shall first be approved by the Superintendent. Pipe must be laid sufficiently waving, and to such depth, as to prevent rupture from settlement or freezing.

90.12 RESPONSIBILITY FOR WATER SERVICE PIPE. All costs and expenses incident to the installation, connection and maintenance of the water service pipe from and including the corporation to the building served shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation or maintenance of said water service pipe.

90.13 FAILURE TO MAINTAIN. When any portion of the water service pipe which is the responsibility of the property owner becomes defective or creates a nuisance and the owner fails to correct such nuisance the City may do so and assess the costs thereof to the property.
(Code of Iowa, Sec. 364.12[3a & h])

90.14 CURB VALVE. There shall be installed within the public right-of-way a main shut-off valve on the water service pipe of a pattern approved by the Superintendent. The shut-off valve shall be constructed to be visible and even with the pavement or ground. All costs and expenses incident to the installation, connection and maintenance of the curb valve shall be borne by the owner.

90.15 INTERIOR VALVE. There shall be installed a shut-off valve on every service pipe inside the building as close to the entrance of the pipe within the building as possible and so located that the water can be shut off conveniently. Where one service pipe supplies more than one customer within the building, there shall be separate valves for each such customer so that service may be shut off for one without interfering with service to the others.

90.16 INSPECTION AND APPROVAL. All water service pipes and their connections to the water system must be inspected and approved in writing by the Superintendent before they are covered, and the Superintendent shall keep a record of such approvals. If the Superintendent refuses to approve the work, the plumber or property owner must proceed immediately to correct the work. Every person who uses or intends to use the municipal water system shall permit the Superintendent to enter the premises to inspect or make necessary alterations or repairs at all reasonable hours and on proof of authority.

90.17 COMPLETION BY THE CITY. Should any excavation be left open or only partly refilled for twenty-four (24) hours after the water service pipe is installed and connected with the water system, or should the work be improperly done, the City shall have the right to finish or correct the work, and the Council shall assess the costs to the property owner or the plumber. If the plumber is assessed, the plumber must pay the costs before receiving another permit. If the property owner is assessed, such assessment may be collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12[3a & h])

90.18 SHUTTING OFF WATER SUPPLY. The Superintendent may shut off the supply of water to any customer because of any violation of the regulations contained in these Water Service System chapters that is not being contested in good faith. The supply shall not be turned on again until all violations have been corrected and the Superintendent has ordered the water to be turned on.

90.19 OPERATION OF CURB VALVE AND HYDRANTS. It is unlawful for any person except the Superintendent to turn water on or off at the curb valve, and no person, unless specifically authorized by the City, shall open or attempt to draw water from any fire hydrant for any purpose whatsoever.

90.20 CROSS CONNECTIONS PROHIBITED. No person owning any interest in and to any real estate to which any potable water is supplied or delivered directly or indirectly by the City shall ever allow there to be any type of interconnection, permanent or temporary, with any other water source, either public or private. Due to the potential health hazards of water interconnections, any City officer or employee is authorized and directed to terminate immediately the delivery of water from the City or through its delivery system to any property upon which any violation of this section is reasonably believed to exist unless and until it is clearly shown by the customer at such location that no violation of this section exists.

90.21 BOILERS AND PRESSURE VESSELS. Customers having boilers and/or pressure vessels receiving a supply of water from the City must have a check valve on the water supply line and a vacuum valve on the steam line to prevent collapse in case the water supply from the City is discontinued or interrupted for any reason, with or without notice.

90.22 LINE EXTENSIONS. The City will construct extensions to its water lines to points within its service area but the City shall not be required to make such installations unless the customer pays to the City the entire cost of the installation. All decisions in connection with the manner of installation of any extension and maintenance thereof shall remain in the exclusive control of the City and such extension shall be the property of the City and no other person shall have any right, title or interest therein.

91.03 IRRIGATION METERS. Upon approval of the Superintendent, an irrigation meter may also be installed to measure water outside the house, building or premises and that is not disposed of through the public sanitary sewer system. The water measured by an irrigation meter may include water for swimming pools, watering yards, watering gardens or other similar uses. The following regulations apply to irrigation meters.

1. The irrigation meter is to be installed as a totally separate connection and not in series or in conjunction with the first or prime meter. The first or prime meter shall not measure water used outside and measured by the irrigation meter.
2. Meters shall be registered by and purchased from the City at the City's cost plus \$25.00. The expense to install, maintain, and replace the meter will be the property owner's responsibility.
3. Prior to installation of the irrigation meter, the Superintendent shall review and determine whether the meter meets the guidelines, including location and use of the meter.
4. When the connection of the irrigation meter is to an underground irrigation system, a back flow preventer must be installed between the irrigation system and the irrigation meter. The back flow preventer device must be approved by the Superintendent prior to installation. No irrigation systems shall be installed in the public right-of-way.

91.04 FIRE SPRINKLER SYSTEMS - EXCEPTION. Fire sprinkler systems may be connected to water mains by direct connection without meters under the direct supervision of the Superintendent. No open connection can be incorporated in the system, and there shall be no valves except a main control valve at the entrance to the building which must be sealed open.

91.05 LOCATION OF METERS. All meters shall be so located that they are easily accessible to meter readers and repairmen and protected from freezing.

91.06 METER SETTING. The property owner shall provide all necessary piping and fittings for proper setting of the meter including a valve on the discharge side of the meter.

Meter pits may be used only upon approval of the Superintendent and shall be of a design and construction approved by the Superintendent.

91.07 METER COSTS. The full cost of any meter larger than a 5/8-inch meter shall be paid to the City by the property owner or customer prior to the installation of any such meter by the City, or, at the sole option of the City, the property owner or customer may be required to purchase and install such meter in accordance with requirements established by the City.

91.09 CHARGES FOR BREAKING SEAL OR TAMPERING WITH METER. If any water meter of the City shall have been tampered with, or if the seal thereon shall have been broken, water service to the premises served by the meter shall be suspended immediately and shall not again be restored until the property owner or customer shall have paid to the City, in addition to any charges for water used and measured and all other charges previously made, the sum of \$250.00 as liquidated damages for water used and not measured together with any costs of the repair and reinstallation of the meter.

91.10 RIGHT OF ENTRY. The Superintendent shall be permitted to enter the premises of any customer at any reasonable time to read, remove, or change a meter.

92.03 Rates Outside the City	92.10 Lien Notice
92.04 Billing for Water Service	92.11 Connection Charge
92.05 Estimated Readings	92.12 Temporary Vacancy

1. Base Rate Access Fee. There shall be a minimum base rate access fee of \$13.00 per month.

The base rate access fee applies regardless of if there is any actual water usage with the exception that the base rate access fee will not apply when billing for an irrigation meter installed under Section 91.03. Where necessary, such fees shall be pro-rated based upon the foregoing full month base rate access fee and gallons of water used on a per diem basis. Such fees are applicable in like amount whether the subject location is served by a City water connection or by a private water system.

2. Additional Usage Fee. In addition to the base rate access fee, there shall be an added usage fee based upon actual usage of water for \$7.93 per 1,000 gallons.

3. There will be an automatic 2% increase of the added usage fee on July 1 every year, to ensure the utility system can meet their obligations; provided, however, that the City Council may decide, by resolution, not to increase the rate in any fiscal year. If Iowa Regional Utilities Association has an increase of its prices, there will be an equal increase done immediately by the City.

(Section 92.02 – Ord. 1144 – Oct. 23 Supp.)

Water service shall be provided any customer located outside the corporate limits of the City which the City has agreed to serve at rates one hundred twenty-five percent (125%) of the rates provided in Section 92.02. No such customer, however, will be served unless the customer shall have signed a service contract agreeing to be bound by the ordinances, rules and regulations applying to water service established by the Council.

(Code of Iowa, Sec. 364.4[2] and 384.84)

92.04 BILLING FOR WATER SERVICE. Water service shall be billed as part of a combined service account, payable in accordance with the following:

2. Bills Issued. The Clerk shall prepare and issue bills for combined service accounts on or before the last day of the month.
3. Bills Payable. Bills for combined service accounts shall be due and payable at the office of the Clerk by the 15th of each month.
4. Late Payment Penalty. Bills not paid when due shall be considered delinquent. A one-time late payment penalty of ten percent (10%) of the current amount due shall be added to each delinquent bill.

(Section 92.04 – Ord. 1141 – Oct. 22 Supp.)

92.05 ESTIMATED READINGS. Where a meter has ceased to register, or meter readings could not be obtained, the quantity of water consumed for billing purposes will be based upon an average of the prior six (6) months' consumption, and the conditions of water service prevailing during the period in which the meter failed to register.

92.06 CONSTRUCTION USE. Water for building or construction purposes will be furnished by meter measurement, only after suitable deposit has been made, the minimum deposit being ten dollars (\$10.00); and the amount to be determined by the City, depending upon the size of the construction work contemplated; and all water for building or construction purposes, as set forth in the permit, must pass through one and the same meter. Water so supplied shall be discharged through a hose or pipe directly upon material to be wet, or into a barrel or other container, and in no case upon the ground or into or through a ditch or trench and all use of water by other than the applicant or use of water for any purpose or upon any premises not so stated or described in the application must be prevented by the applicant, or water service may be discontinued without notice.

92.07 SERVICE DISCONTINUED. Water service to delinquent customers shall be discontinued or disconnected in accordance with the following:

(Code of Iowa, Sec. 384.84)

1. Notice. The Clerk shall notify each delinquent customer that service will be discontinued or disconnected if payment of the combined service account, including late payment charges, is not received by the date specified in the notice of delinquency. Such notice shall be sent by ordinary mail to the customer in whose name the delinquent charges were incurred and shall inform the customer of the nature of the delinquency and afford the customer the opportunity for a hearing prior to the discontinuance or disconnection.
2. Notice to Landlords. If the customer is a tenant, and if the owner or landlord of the property or premises has made a written request for notice, the notice of delinquency shall also be given to the owner or landlord. If the customer is a tenant and requests a change of name for service under the account, such request shall be sent to the owner or landlord of the property if the owner or landlord has made a written request for notice of any change of name for service under the account to the rental property.

3. Hearing. If a hearing is requested within ten (10) days the Hearing Board[†] shall conduct an informal hearing and shall make a determination as to whether the discontinuance or disconnection is justified. The customer has the right to appeal the Hearing Board's decision to the Council, and if the Council finds that discontinuance or disconnection is justified, then such discontinuance or disconnection shall be made, unless payment has been received.

4. Service Fee. A service fee of forty dollars (\$40.00) shall be charged when the delinquent water bill is not paid by the date stated on the disconnect notice. No fee shall be charged for the usual or customary trips in the regular changes in occupancies of property.

(Ord. 1139 – Oct. 22 Supp.)

(Ord. 1112 – Jan. 18 Supp.)

92.08 LIEN FOR NONPAYMENT. The owner of the premises served and any lessee or tenant thereof shall be jointly and severally liable for water service charges to the premises. Water service charges remaining unpaid and delinquent shall constitute a lien upon the premises served and shall be certified by the Clerk to the County Treasurer for collection in the same manner as property taxes, together with a collection fee of \$20.00.

(Code of Iowa, Sec. 384.84)

92.09 LIEN EXEMPTION.

(Code of Iowa, Sec. 384.84)

1. Water Service Exemption. The lien for nonpayment shall not apply to charges for water service to a residential or commercial rental property where water service is separately metered and the rates or charges for the water service are paid directly to the City by the tenant, if the landlord gives written notice to the City that the property is residential or commercial rental property and that the tenant is liable for the rates or charges. The City may require a deposit not exceeding the usual cost of ninety (90) days of such services to be paid to the City. When the tenant moves from the rental property, the City shall refund the deposit if all service charges are paid in full. The lien exemption does not apply to delinquent charges for repairs related to any of the services.

2. Other Service Exemption. The lien for nonpayment shall also not apply to the charges for any of the services of sewer systems, storm water drainage systems, sewage treatment, solid waste collection, and solid waste disposal for a residential rental property where the charge is paid directly to the City by the tenant, if the landlord gives written notice to the City that the property is residential rental property and that the tenant is liable for the rates or charges for such service. The City may require a deposit not exceeding the usual cost of ninety (90) days of such services to be paid to the City. When the tenant moves from the rental property, the City shall refund the deposit if all service charges are paid in full. The lien exemption does not apply to delinquent charges for repairs related to any of the services.

3. Written Notice. The landlord's written notice shall contain the name of the tenant responsible for charges, the address of the residential or commercial rental property that the tenant is to occupy, and the date that the occupancy begins. Upon receipt, the City shall acknowledge the notice and deposit. A change in tenant for a residential rental property shall require a new written notice to be given to the City

A change in tenant for a commercial rental property shall require a new written notice to be given to the City within ten (10) business days of the change in tenant. A change in the ownership of the residential rental property shall require written notice of such change to be given to the City within thirty (30) business days of the completion of the change of ownership. A change in the ownership of the commercial rental property shall require written notice of such change to be given to the City within ten (10) business days of the completion of the change of ownership.

(Ord. 1090 – Aug. 14 Supp.)

4. Mobile Homes, Modular Homes, and Manufactured Homes. A lien for nonpayment of utility services described in subsections 1 and 2 of this section shall not be placed upon a premises that is a mobile home, modular home, or manufactured home if the mobile home, modular home, or manufactured home is owned by a tenant of and located in a mobile home park or manufactured home community and the mobile home park or manufactured home community owner or manager is the account holder, unless the lease agreement specifies that the tenant is responsible for payment of a portion of the rates or charges billed to the account holder.

(Subsection 4 – Ord. 1105 – Jan. 18 Supp.)

92.10 LIEN NOTICE. A lien for delinquent water service charges shall not be certified to the County Treasurer unless prior written notice of intent to certify a lien is given to the customer in whose name the delinquent charges were incurred. If the customer is a tenant and if the owner or landlord of the property or premises has made a written request for notice, the notice shall also be given to the owner or landlord. The notice shall be sent to the appropriate persons by ordinary mail not less than thirty (30) days prior to certification of the lien to the County Treasurer.

(Code of Iowa, Sec. 384.84)

92.11 CONNECTION CHARGE. The person who makes the application for service shall pay a connection charge in the amount of seventy-five dollars (\$75.00) to reimburse the City for costs borne by the City in making water service available to the property served.

(Section 92.11 – Ord 1139 – Oct. 22 Supp.)

92.12 TEMPORARY VACANCY. A property owner may request water service be temporarily discontinued and shut off at the curb valve when the property is expected to be vacant for an extended period of time. During a period when service is temporarily disconnected as provided herein there shall be no fee collected for shutting water off at the curb valve; however, there shall be a twenty-five dollar (\$25.00) fee collected for restoring service and the minimum quarterly water service rate shall be charged. The City will not drain pipes or pull meters for temporary vacancies.

95.05 SEWER CONNECTION REQUIRED. The owners of any houses, buildings, or properties used for human occupancy, employment, recreation or other purposes, situated within the City and abutting on any street, alley or right-of-way in which there is now located, or may in the future be located, a public sanitary or combined sewer, are hereby required to install, at such owner's expense, suitable toilet facilities therein and a building sewer connecting such facilities directly with the proper public sewer, and to maintain the same all in accordance with the provisions of these Sanitary Sewer chapters, such compliance to be completed within eighteen (18) months after date of official notice from the City to do so provided that said public sewer is located within one hundred fifty (150) feet of the property line of such owner and is of such design as to receive and convey by gravity such sewage as may be conveyed to it. Billing for sanitary sewer service will begin the date of official notice to connect to the public sewer.

(Code of Iowa, Sec. 364.12 [3f])

(IAC, 567-69.1[3])

95.06 SERVICE OUTSIDE THE CITY. The owners of property outside the corporate limits of the City so situated that it may be served by the City sewer system may apply to the Council for permission to connect to the public sewer upon the terms and conditions stipulated by resolution of the Council.

96.05 Connection Requirements

96.06 Interceptors Required

96.07 Sewer Tap

96.08 Abandoned Connections

96.11 Abatement of Violations

96.01 PERMIT. No unauthorized person shall uncover, make any connection with or opening into, use, alter or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the City. The application for the permit shall set forth the location and description of the property to be connected with the sewer system and the purpose for which the sewer is to be used, and shall be supplemented by any plans, specifications, or other information considered pertinent. The permit shall require the owner to complete construction and connection of the building sewer to the public sewer within sixty (60) days after the issuance of the permit, except that when a property owner makes sufficient showing that due to conditions beyond the owner's control or peculiar hardship, such time period is inequitable or unfair, an extension of time within which to comply with the provisions herein may be granted. Any sewer connection permit may be revoked at any time for a violation of these chapters.

96.02 CONNECTION CHARGE. Before any permit is issued, the person who makes the application shall pay a connection charge in an amount determined by resolution of the Council.

96.03 PLUMBER REQUIRED. All installations of building sewers and connections to the public sewer shall be made by a State-licensed plumber.

96.04 EXCAVATIONS. All trench work, excavation, and backfilling required for the installation of a building sewer shall be performed in accordance with the provisions of the *State Plumbing Code* and the provisions of Chapter 135 of this Code of Ordinances.

96.05 CONNECTION REQUIREMENTS. Any connection with a public sanitary sewer must be made under the direct supervision of the Superintendent and in accordance with the following:

1. **Old Building Sewers.** Old building sewers may be used in connection with new buildings only when they are found, on examination and test conducted by the owner and observed by the Superintendent, to meet all requirements of this chapter.
2. **Separate Building Sewers.** A separate and independent building sewer shall be provided for every occupied building; except where one building stands at the rear of another on an interior lot and no private sewer is available or can be constructed to the rear building through an adjoining alley, court, yard, or driveway. In such cases the building sewer from the front building may be extended to the rear building and the whole considered as one building sewer.

3. Installation. The connection of the building sewer into the public sewer shall conform to the requirements of the *State Plumbing Code*, applicable rules and regulations of the City, or the procedures set forth in A.S.T.M. Specification C-12. All such connections shall be made gastight and watertight. Any deviation from the prescribed procedures and materials must be approved by the Superintendent before installation.
4. Water Lines. When possible, building sewers should be laid at least ten (10) feet horizontally from a water service. The horizontal separation may be less, provided the water service line is located at one side and at least twelve (12) inches above the top of the building sewer.
5. Size. Building sewers shall be sized for the peak expected sewage flow from the building with a minimum building sewer size of four (4) inches.
6. Alignment and Grade. All building sewers shall be laid to a straight line to meet the following:
 - A. Recommended grade at one-fourth ($\frac{1}{4}$) inch per foot.
 - B. Minimum grade of one-eighth ($\frac{1}{8}$) inch per foot.
 - C. Minimum velocity of 2.00 feet per second with the sewer half full.
 - D. Any deviation in alignment or grade shall be made only with the written approval of the Superintendent and shall be made only with approved fittings.
7. Depth. Whenever possible, the building sewer shall be brought to the building at an elevation below the basement floor. The depth of cover above the sewer shall be sufficient to afford protection from frost.
8. Sewage Lifts. In all buildings in which any building drain is too low to permit gravity flow to the public sewer, sanitary sewage carried by such drain shall be lifted by approved artificial means and discharged to the building sewer.
9. Pipe Specifications. Building sewer pipe shall be free from flaws, splits, or breaks. Materials shall be as specified in the *State Plumbing Code* except that the building sewer pipe, from the property line to the public sewer, shall comply with the current edition of one of the following:
 - A. Clay sewer pipe - A.S.T.M. C-700 (extra strength).
 - B. Extra heavy cast iron soil pipe - A.S.T.M. A-74.
 - C. Ductile iron water pipe - A.W.W.A. C-151.
 - D. P.V.C. - SDR26 - A.S.T.M. D-3034.
10. Bearing Walls. No building sewer shall be laid parallel to, or within three (3) feet of any bearing wall, which might thereby be weakened.
11. Jointing. Fittings, type of joint, and jointing material shall be compatible with the type of pipe used, subject to the approval of the Superintendent. Solvent-welded joints are not permitted.
12. Unstable Soil. No sewer connection shall be laid so that it is exposed when crossing any watercourse. Where an old watercourse must of necessity be crossed or where there is any danger of undermining or settlement, cast iron soil pipe or vitrified clay sewer pipe thoroughly encased in concrete shall be required for such crossings.

Such encasement shall extend at least six (6) inches on all sides of the pipe. The cast iron pipe or encased clay pipe shall rest on firm, solid material at either end.

13. Preparation of Basement or Crawl Space. No connection for any residence, business or other structure with any sanitary sewer shall be made unless the basement floor is poured, or in the case of a building with a slab or crawl space, unless the ground floor is installed with the area adjacent to the foundation of such building cleared of debris and backfilled. The backfill shall be well compacted and graded so that the drainage is away from the foundation. Prior to the time the basement floor is poured, or the first floor is installed in buildings without basements, the sewer shall be plugged and the plug shall be sealed by the Superintendent. Any accumulation of water in any excavation or basement during construction and prior to connection to the sanitary sewer shall be removed by means other than draining into the sanitary sewer.

96.06 INTERCEPTORS REQUIRED. Grease, oil, sludge and sand interceptors shall be provided by gas and service stations, convenience stores, car washes, garages, and other facilities when, in the opinion of the Superintendent, they are necessary for the proper handling of such wastes that contain grease in excessive amounts or any flammable waste, sand or other harmful ingredients. Such interceptors shall not be required for private living quarters or dwelling units. When required, such interceptors shall be installed in accordance with the following:

1. Design and Location. All interceptors shall be of a type and capacity as provided by the *State Plumbing Code*, to be approved by the Superintendent, and shall be located so as to be readily and easily accessible for cleaning and inspection.
2. Construction Standards. The interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight and equipped with easily removable covers that shall be gastight and watertight.
3. Maintenance. All such interceptors shall be maintained by the owner at the owner's expense and shall be kept in continuously efficient operations at all times.

96.07 SEWER TAP. Connection of the building sewer into the public sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If no properly located "Y" branch is available, a saddle "Y" shall be installed at the location specified by the Superintendent. The public sewer shall be tapped with a tapping machine and a saddle appropriate to the type of public sewer shall be glued or attached with a gasket and stainless steel clamps to the sewer. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent and in accordance with the Superintendent's direction if such connection is approved.

96.08 ABANDONED CONNECTIONS. When an existing sewer service is abandoned or a service is renewed with a new tap in the main, all abandoned connections with the mains shall be disconnected at the "Y" and made absolutely watertight.

96.09 INSPECTION REQUIRED. All connections with the sanitary sewer system before being covered shall be inspected and approved, in writing, by the Superintendent. As soon as all pipe work from the public sewer to inside the building has been completed, and before any backfilling is done, the Superintendent shall be notified and the Superintendent shall inspect and test the work as to workmanship and material; no sewer pipe laid under ground shall be

covered or trenches filled until after the sewer has been so inspected and approved. If the Superintendent refuses to approve the work, the plumber or owner must proceed immediately to correct the work.

96.10 PROPERTY OWNER'S RESPONSIBILITY.

1. Unless designated as a "special project property" by procedure described in this section, all costs and expenses incident to the installation, connection and maintenance of the building sewer shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation of the building sewer.
2. If a private sewer service line within a designated project area is otherwise adequate and intact, but because of design and materials and age of the service line it is determined to be of the type that allows excessive groundwater and/or surface water into the City sanitary sewer that property can be designated a "special project property" eligible for municipal funds to be used for some or all of the replacement costs.
3. The following criteria will be considered by the City engineering consultant to determine if service line replacement will be eligible for inclusion under "special project property:"
 - A. Lines made of clay or ceramic.
 - B. Lines more than 20 years old.
 - C. Lines with atypical connections to sanitary main in terms of length or location.
 - D. Visual inspection of clear water discharge from lines into sanitary main through televising.
4. Upon determination that a number of properties within a designated project area qualify for a replacement project, the proposed project may be voted on by resolution approving the project. Upon the passing of such a resolution, notice of the list of special project properties will be published.
5. Residents within the designated project area who are not on the list of properties and believe inclusion of their properties would be in the best interests of the community may file an appeal with the Clerk within twenty (20) days of published notice. Appeal is before City Council.
6. Upon appeal the City Council may vote to include a property as a special project property upon a finding that any of the following is true:
 - A. If there was a mistake in facts that lead to the property not being included.
 - B. If it would make sense from a construction standpoint to include said property.
 - C. Upon reconsideration of engineer to include said property.
 - D. If it is in the best interest of the community to include said property.
7. Determination of City Council on appeal shall be a final determination.

96.11 ABATEMENT OF VIOLATIONS. Construction or maintenance of building sewer lines whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner's expense, within thirty (30) days after date of official notice from the Council of such violation. If not made within such time the Council shall, in addition to the other penalties herein provided, have the right to finish and correct the work and assess the cost thereof to the property owner. Such assessment shall be collected with and in the same manner as general property taxes.

CHAPTER 97

USE OF PUBLIC SEWERS

97.01 Storm Water
97.02 Surface Waters Exception
97.03 Prohibited Discharges
97.04 Restricted Discharges

97.05 Restricted Discharges - Powers
97.06 Special Facilities
97.07 Control Manholes
97.08 Testing of Wastes

97.01 STORM WATER. No person shall discharge or cause to be discharged any storm water, surface water, groundwater, roof run-off, sub-surface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Storm water and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as combined sewers or storm sewers, or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged on approval of the Superintendent, to a storm sewer, combined sewer, or natural outlet.

97.02 SURFACE WATERS EXCEPTION. Special permits for discharging surface waters to a public sanitary sewer may be issued by the Council upon recommendation of the Superintendent where either of the following apply:

1. Such discharge is deemed necessary or advisable for purposes of flushing.
2. Due to extreme or unusual circumstances, the enforcement of Section 97.01 would create a significant hardship upon the person discharging, or causing to be discharged, surface drainage as provided in said section, and where the allowance of the discharge prohibited by said section will not significantly affect the interests sought to be protected by said section.

Any permits so issued shall be subject to revocation at any time when deemed by the Council to be in the best interests of the sewer system.

97.03 PROHIBITED DISCHARGES. No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

1. Flammable or Explosive Material. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.
2. Toxic or Poisonous Materials. Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two (2) milligrams per liter as CN in the wastes as discharged to the public sewer.
3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
4. Solid or Viscous Substances. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood,

unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.

5. Excessive B.O.D., Solids or Flow. Any waters or wastes having (a) a five (5) day biochemical oxygen demand greater than three hundred (300) parts per million by weight, or (b) containing more than three hundred fifty (350) parts per million by weight of suspended solids, or (c) having an average daily flow greater than two percent (2%) of the average sewage flow of the City, shall be subject to the review of the Superintendent. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner's expense, such preliminary treatment as may be necessary to (a) reduce the biochemical oxygen demand to three hundred (300) parts per million by weight, or (b) reduce the suspended solids to three hundred fifty (350) parts per million by weight, or (c) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent and no construction of such facilities shall be commenced until said approvals are obtained in writing.

97.04 RESTRICTED DISCHARGES. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than one hundred fifty (150) degrees F (65 degrees C).
2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100) milligrams per liter or six hundred (600) milligrams per liter of dispersed or other soluble matter.
3. Viscous Substances. Water or wastes containing substances which may solidify or become viscous at temperatures between thirty-two (32) and one hundred fifty (150) degrees F (0 and 65 degrees C).
4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half (½) inch in any dimension.
5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution whether neutralized or not.
6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be

established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of state, federal, or other public agencies or jurisdiction for such discharge to the receiving waters.

8. Radioactive Wastes. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable state or federal regulations.
9. Excess Alkalinity. Any waters or wastes having a pH in excess of 9.5.
10. Unusual Wastes. Materials which exert or cause:
 - A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).
 - B. Excessive discoloration (such as, but not limited to dye wastes and vegetable tanning solutions).
 - C. Unusual B.O.D., chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 - D. Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.
11. Noxious or Malodorous Gases. Any noxious or malodorous gas or other substance which either singly or by interaction with other wastes is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.
12. Damaging Substances. Any waters, wastes, materials or substances which react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration or create any other condition deleterious to structures and treatment processes.
13. Untreatable Wastes. Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

97.05 RESTRICTED DISCHARGES - POWERS. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.04 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. Rejection. Reject the wastes by requiring disconnection from the public sewage system;
2. Pretreatment. Require pretreatment to an acceptable condition for discharge to the public sewers;
3. Controls Imposed. Require control over the quantities and rates of discharge; and/or

4. Special Charges. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

97.06 SPECIAL FACILITIES. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

97.07 CONTROL MANHOLES. When required by the Superintendent the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

97.08 TESTING OF WASTES. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of "Standard Methods of the Examination of Water and Wastewater," published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from twenty-four (24) hour composites of all outfalls whereas pH's are determined from periodic grab samples).

98.02 WHEN REQUIRED. When a public sanitary sewer is not available under the provisions of Section 95.05, every building wherein persons reside, congregate or are employed shall be provided with an approved on-site wastewater treatment and disposal system complying with the provisions of this chapter.

(IAC, 567-69.1[3])

98.06 MAINTENANCE OF SYSTEM. The owner of an on-site wastewater treatment and disposal system shall operate and maintain the system in a sanitary manner at all times and at no expense to the City.

98.07 SYSTEMS ABANDONED. At such time as a public sewer becomes available to a property served by an on-site wastewater treatment and disposal system, as provided in Section 95.05, a direct connection shall be made to the public sewer in compliance with these Sanitary Sewer chapters and the on-site wastewater treatment and disposal system shall be abandoned and filled with suitable material.

(Code of Iowa, Sec. 364.12[3f])

98.08 DISPOSAL OF SEPTAGE. No person shall dispose of septage from an on-site treatment system at any location except an approved disposal site.

98.09 MINIMUM LOT AREA. No permit shall be issued for any on-site wastewater treatment and disposal system employing sub-surface soil absorption facilities where the area of the lot is less than fifteen hundred (1500) square feet.

SEWER SERVICE CHARGES

99.01 Sewer Service Charges Required

99.02 Rates for Service

99.02A Annual Rate Review

99.03 Special Rates

99.04 Private Water Systems

99.05 Payment of Bills

99.06 Lien for Nonpayment

99.07 Special Agreements Permitted

99.08 User Notification

99.09 Precedence

99.01 SEWER SERVICE CHARGES REQUIRED. Every customer shall pay to the City sewer service fees as hereinafter provided. The user charge system shall generate adequate annual revenues to pay costs of annual operation and maintenance including replacement and costs associated with debt retirement of bonded capital associated with financing the treatment works which the City may by ordinance designate to be paid by the user charge system. That portion of the total user charge which is designated for operation and maintenance, including replacement of the treatment works, will be established by this chapter.

99.02 RATES FOR SERVICE. Sewer service shall be furnished at the following rates:

1. Sewer Service Charges. Each customer shall pay sewer service charges in the amount of \$17.60 base rate per month plus a service usage charge based upon the amount of water consumed in the amount of \$5.56 per 1,000 gallons. The base rate fee applies whether or not there is any service/water usage. Where necessary, such charges shall be pro-rated based upon the foregoing full month base fee and gallons of water used on a per diem basis. Such charges are applicable in like amount whether the subject location is served by a City water connection or by a private water system.

The service usage charge shall automatically be increased by two percent (2%) each July 1, to ensure the utility system can meet its obligations; provided, however, that the City Council may determine, by resolution, not to increase the rate in any fiscal year.

2. Outside the City. Sewer service shall be provided any customer located outside the corporate limits of the City which the City has agreed to serve at rates one hundred twenty-five percent (125%) of the normal rates. No such customer, however, will be served unless the customer shall have signed a service agreement agreeing to be bound by the ordinances, rules, and regulations applicable to sewer service established by the Council.

(Section 99.02 – Ord. 1145 – Oct. 23 Supp.)

99.02A ANNUAL RATE REVIEW. In May of each year, the City Council shall review the current water rates and by resolution, state the sewer rates per Section 99.02 for the following fiscal year. *(Ord. 1145 – Oct. 23 Supp.)*

99.03 SPECIAL RATES. Any user that discharges any toxic pollutants which cause an increase in the cost of managing the effluent or the sludge from the City's treatment works, or any user which discharges any substance which singly or by interaction with other substances causes identifiable increases in the cost of operation, maintenance or replacement of the treatment works, shall pay for such increased costs. The charge to each such user shall be as determined by the Superintendent and approved by the Council. Where, in the judgment of the

Superintendent and the Council, special conditions exist to the extent that the application of the sewer service charges provided in Section 99.02 would be inequitable or unfair to either the City or the customer, the Council may, by resolution, establish a special rate for such customer.

99.04 PRIVATE WATER SYSTEMS. Persons owning real estate within the City which is connected to the City's sanitary sewer system and which is served by a private water system shall, at their own expense, install and thereafter maintain suitable water metering equipment to effectuate and sustain prompt and accurate metering of water usage sufficient to implement the City's system of sanitary sewer service charges.

(Code of Iowa, Sec. 384.84[2b])

99.05 PAYMENT OF BILLS. All sewer service charges are due and payable under the same terms and conditions provided for payment of a combined service account as contained in Section 92.04 of this Code of Ordinances. Sewer service may be discontinued in accordance with the provisions contained in Section 92.07 if the combined service account becomes delinquent, and the provisions contained in Section 92.10 relating to lien notices shall also apply in the event of a delinquent account.

99.06 LIEN FOR NONPAYMENT. Except as provided for in Section 92.09 of this Code of Ordinances, the owner of the premises served and any lessee or tenant thereof shall be jointly and severally liable for sewer service charges to the premises. Sewer service charges remaining unpaid and delinquent shall constitute a lien upon the premises served and shall be certified by the Clerk to the County Treasurer for collection in the same manner as property taxes.

(Code of Iowa, Sec. 384.84)

99.07 SPECIAL AGREEMENTS PERMITTED. No statement in these chapters shall be construed as preventing a special agreement, arrangement or contract between the Council, and any industrial concern whereby an industrial waste of unusual strength or character may be accepted subject to special conditions, rate and cost as established by the Council.

99.08 USER NOTIFICATION. The City shall notify each user at least annually, in conjunction with a regular bill, of the sewer rate being charged.

99.09 PRECEDENCE. The user charge system takes precedence over any terms and conditions of agreements or contracts between the City and users (including industrial users, special districts, other municipalities or Federal agencies or installations) that are inconsistent with the requirements of Section 204(b)(1)(A) of the Federal Clean Water Act and the corresponding regulations.

CHAPTER 100

SURFACE WATER DRAINAGE SURCHARGE AND SUMP PUMP PROGRAM FUND

100.01 Purpose

100.02 Presumption of Noncompliance

100.03 Request for Certification of Compliance

100.04 Imposition of Surcharge

100.05 Sump Pump Program Fund Established

100.06 Disbursement of Sump Pump Program Fund Moneys

100.07 Payment of Surcharge

100.08 Effective Date

100.01 PURPOSE. Section 97.01 of this Code of Ordinances provides, in part, that storm water, surface water, and other types of surface drainage specified therein shall not be discharged into the sanitary sewer system. It has come to the attention of the Council that there may be a significant number of violations of this Code provision by property owners within the City. These violations have, in turn, created a significant inflow and infiltration problem for the sanitary sewer system of the City to the extent that the Iowa Department of Natural Resources has mandated a twenty percent (20%) reduction of inflow and infiltration within the City's sanitary sewer system. In order to bring all properties located within the City into compliance with the provisions of Section 97.01, and thereby help meet the objectives mandated by the Iowa Department of Natural Resources, the Council proposes to impose a surcharge upon all properties which do not comply with Section 97.01 of this Code of Ordinances, and to use the funds thus collected to encourage property owners to come into compliance with said Section through a program of partial reimbursement of certain costs and expenditures incurred by the property owners in bringing the properties into compliance.

100.02 PRESUMPTION OF NONCOMPLIANCE. As of the effective date of the ordinance codified in this chapter, as specified in Section 100.08, all properties located within the corporate boundaries of the City shall be presumed to be in noncompliance with the provisions of Section 97.01 of this Code.

100.03 REQUEST FOR CERTIFICATION OF COMPLIANCE. In order for a property to come into compliance with Section 97.01, it shall be necessary for a Certificate of Compliance to be issued by the Superintendent. It shall be the responsibility of the property owner to request the Superintendent for a Certificate of Compliance. Upon receipt of such a request, it shall be the duty of the Superintendent to promptly inspect the property and to determine whether or not the property complies with Section 97.01 of this Code of Ordinances. Without limiting the generality of the showing necessary with regard to Section 97.01, it shall specifically be necessary to show that any type of bypass device which would enable surface drainage as defined in Section 97.01 to be drained directly into the sanitary sewer system be permanently removed, capped, or plugged. If it is determined that the property is in compliance with Section 97.01, the Superintendent shall issue a Certificate of Compliance. If it is determined that the property is not in compliance, or if the Superintendent is unable to determine the status of the property, the Superintendent shall advise the property owner of the steps necessary to bring the property into compliance, or of the steps necessary to properly determine the status of the property, as the case may be. The services of the Superintendent in determining the issue of compliance and in issuing the certificate of compliance shall be without charge to the property owner. To the extent the services of the Superintendent are inadequate to determine the issue of compliance, any additional costs incurred by the property owner with regard to the status of the property shall be the responsibility of the property owner and may be

subject to reimbursement from the Sump Pump Program Fund established in this chapter. A request by the property owner for a determination of the issue of compliance shall be deemed to include permission by the property owner for the Superintendent to enter upon the property and to inspect the same, including the right to enter into any improvements and buildings which are located on the property at reasonable times and places.

100.04 IMPOSITION OF SURCHARGE. Commencing with the effective date of the ordinance codified in this chapter, as specified in Section 100.08, there is hereby imposed against the owner of a property a surcharge in accordance with the following schedule:

Time Period Effective	Amount of Surcharge
First Three Years After Effective Date	\$7.50 per month
Fourth Year After Effective Date	\$15.00 per month
Fifth Year After Effective Date	\$22.50 per month
Sixth Year After Effective Date and Thereafter	\$30.00 per month

for each month, or part of each month, for which a property located within the corporate boundaries of the City has not been certified as being in compliance with Section 97.01 of this Code of Ordinances. Funds collected pursuant to this surcharge shall be deposited in the Sump Pump Program Fund hereinafter established.

100.05 SUMP PUMP PROGRAM FUND ESTABLISHED. There is hereby established a fund entitled “Sump Pump Program Fund.” Funds collected by the City pursuant to Section 100.04 above shall be deposited into this fund and shall be disbursed as hereinafter set forth.

100.06 DISBURSEMENT OF SUMP PUMP PROGRAM FUND MONEYS. In order to encourage property owners to comply with Section 97.01 of this Code, funds deposited into the Sump Pump Program Fund shall be made available for disbursement to property owners in reimbursement of investigation and installation activities necessary to achieve compliance with Section 97.01. Reimbursement shall be made upon the following terms and conditions:

1. Eligible expenditures shall be those which are actually incurred by the property owner for the following purposes:
 - A. Investigation activities necessary to assist the property owner in determining the status of the property with regard to compliance with Section 97.01 of this Code and in locating the connections which are not in compliance with said section.
 - B. Installation of a sump pump and/or other materials and equipment necessary to bring the property into compliance with Section 97.01 and to allow removal, capping or plugging of the connections which are not in compliance with said section. Examples of the foregoing expenditures would be the cost of a sump pump, related wiring and plumbing, tiling, materials and supplies associated therewith, and labor necessary to perform the work.

Funds cannot be disbursed for reimbursement of costs related to landscaping, connection of the drain to the storm sewer system, or other items not normally associated with investigation and installation as set forth above.

2. The amount of funds which may be reimbursed to a property owner shall be seventy-five percent (75%) of the eligible expenditures with a maximum reimbursement in accordance with the following schedule:

Time Period Effective	Maximum Amount of Reimbursement
First Three Years After Effective Date	\$750.00
Fourth Year After Effective Date	\$500.00
Fifth Year After Effective Date	\$250.00
Sixth Year After Effective Date and Thereafter	\$0.00

3. Reimbursement shall be made for eligible expenditures on a “first come - first served basis” and only if there are sufficient funds in the Sump Pump Program Fund, unless the Council, by resolution, allocates funds from other sources for the reimbursement purposes set forth herein.

4. In order to be eligible for reimbursement, the property owner shall submit an application for reimbursement to the Clerk on a form furnished by the City. The application shall itemize the costs incurred by the property owner and shall include copies of receipts paid by, or invoices submitted to, the property owner. The Clerk shall review and investigate the information contained on the application and make a determination of the eligibility of the expenditures for reimbursement. To the extent that the decision of the Clerk is against reimbursement, the Clerk’s decision may be appealed to the Council. The decision of the Council with regard to eligibility for reimbursement shall be final. The property owner may, prior to commencement of the investigation and/or installation work, submit an estimate of the nature and cost of the work to be performed, and receive a determination by the Clerk as to whether or not the cost of the work, if the terms and conditions of this section are otherwise met, will be available for reimbursement. In no event shall reimbursement be made unless the property in question has been brought into compliance with Section 97.01 of this Code of Ordinances, and in all events, the amount of reimbursement shall be based upon actual costs incurred.

100.07 PAYMENT OF SURCHARGE. The surcharge established pursuant to this chapter is due and payable under the same terms and conditions provided for payment of a combined service account as contained in Section 92.04 of this Code of Ordinances. Sewer service may be discontinued in accordance with the provisions contained in Section 92.07 if the combined service account becomes delinquent, and the provisions contained in Chapter 92 concerning a lien for nonpayment of the account shall also apply in the event of failure to pay the surcharge.

100.08 EFFECTIVE DATE. The ordinance codified in this chapter shall be in effect after its final passage, approval and publication as provided by law, except that the provisions of Section 100.04 concerning the imposition of a surcharge shall become effective on June 1, 1997.

(Ord. 1097 – Aug. 15 Supp.)

105.03 SANITARY DISPOSAL REQUIRED. It is the duty of each owner to provide for the sanitary disposal of all solid waste accumulating on the owner’s premises before it becomes a nuisance. (Code of Iowa, Ch. 657)

(Ord. 1097 – Aug. 15 Supp.)

1. Disaster Rubbish. The open burning of rubbish, including landscape waste, for the duration of the community disaster period in cases where an officially declared emergency condition exists, provided that the burning of any structures or demolished structures is conducted in accordance with 40 CFR Section 61.145.

(IAC, 567-23.2[3a])

2. Trees and Tree Trimmings. The open burning of trees and tree trimmings at a City-operated burning site, provided such burning is conducted in compliance with the rules established by the State Department of Natural Resources.

A. No person shall kindle, maintain or assist in maintaining any fire in any place where buildings or other property or persons are exposed to danger thereby.

B. Open fires shall be constantly attended by an adult until such fire is extinguished, and no person shall start such fire without first being prepared and equipped to keep same under control.

C. Burning shall be completed during daylight hours.

D. Burning cannot occur if the State Fire Marshal or the Jasper County Supervisors or the Mayor or the City Council have declared a burning ban.

E. No burning shall be allowed on any street, sidewalk or alley.

G. The burning of any materials generated from a different location is prohibited.

105.06 LITTERING PROHIBITED. No person shall discard any litter onto or in any water or land, except that nothing in this section shall be construed to affect the authorized collection and discarding of such litter in or on areas or receptacles provided for such purpose. When litter is discarded from a motor vehicle, the driver of the motor vehicle shall be responsible for the act in any case where doubt exists as to which occupant of the motor vehicle actually discarded the litter.

(Code of Iowa, Sec. 455B.363)

105.07 OPEN DUMPING PROHIBITED. No person shall dump or deposit or permit the dumping or depositing of any solid waste on the surface of the ground or into a body or stream of water at any place other than a sanitary disposal project approved by the Director of the State Department of Natural Resources, unless a special permit to dump or deposit solid waste on land owned or leased by such person has been obtained from the Director of the State Department of Natural Resources. However, this section does not prohibit the use of rubble at places other than a sanitary disposal project. "Rubble" means dirt, stone, brick, or similar inorganic materials used for beneficial fill, landscaping, excavation, or grading at places other than a sanitary disposal project, if such materials do not contain solid waste. Rubble includes asphalt waste only as long as it is not used in contact with water in a flood plain. For purposes of this section, rubble does not mean gypsum or gypsum wallboard, coal combustion residue, foundry sand, or industrial process wastes unless those wastes are approved by the State Department of Natural Resources.

(Code of Iowa, Sec. 455B.301, Sec. 455B.307 and IAC, 567-100.2)

(Ord. 1097 – Aug. 15 Supp.)

105.08 TOXIC AND HAZARDOUS WASTE. No person shall deposit in a solid waste container or otherwise offer for collection any toxic or hazardous waste. Such materials shall be transported and disposed of as prescribed by the Director of the State Department of Natural Resources. 1. Storage Containers for Residential Customers. Each residential customer shall be issued a tote for household waste collection services. 3. **Storage of Containers.** Residential solid waste containers and recycling bins shall be stored upon the residential premises behind the line of the front wall of the primary structure. Commercial solid waste containers shall be stored upon private property, unless the owner has been granted written permission from the City to use public property for such purposes. The storage site shall be well drained; fully accessible to collection equipment, public health personnel and fire inspection personnel. All owners of residential and commercial premises shall be responsible for proper storage of all garbage and yard waste to prevent materials from leaving the premises except at collection.

5. **Nonconforming Containers.** Solid waste containers and recycling bins which are not adequate will be collected together with their contents and disposed of after due notice to the owner.

(Ord. 1097 – Aug. 15 Supp.)

115.07 Construction and Excavation by Holders	115.15 Home Rule

115.01 PURPOSE AND RULE OF INTERPRETATION. The purpose of this chapter is to establish uniform rules and controls to ensure public safety and provide efficient delivery of services by the City and others wishing to utilize streets and other public property for the delivery of utility or other services, in order to protect public and private investment, ensure orderly use of public property and ensure the health, safety and welfare of the population, and to provide for the regulation and administration of the public streets and other public property. This chapter is to be interpreted in light of these findings for the benefit of the public and users of the streets and other public property.

115.02 FRANCHISE, LICENSE OR LEASE REQUIRED. No person or other entity shall use the public right of way or other public property without first obtaining a franchise, license or lease from the City. The City shall not enter into or issue any franchise, license or lease that grants exclusive rights. An application for a license or lease shall be filed with the Clerk on a form provided by the City and shall include as a minimum the following information: the name, address and telephone number of the applicant; the name, address and telephone number of a person whom the City may notify or contact at any time concerning the license or lease; an engineering site plan showing the proposed location of the facilities including any manholes, the size, type and proposed depth of any conduit or other enclosures; and any additional information the City may require. All licenses or license or leases required by this section shall be granted by the Council.

115.03 LIMIT ON TERM. No franchise, license or lease for use of the public right-of-way or other public property shall be granted for a term exceeding 25 years.

115.04 PLACEMENT OF FACILITIES. The facilities, fixtures and equipment of the distribution, transmission or sale of any utility services, or services provided under license or lease or easement, shall be placed and maintained so as not to unnecessarily or unreasonably interfere with the travel on the streets, highways, avenues, alleys, bridges and public places in the City, nor shall such facilities, fixtures and equipment interfere with the proper use of the same, including, but not limited to, ordinary drainage, or the functioning of the sewers, underground pipe or other property of the City. In the event that facilities, fixtures and equipment of any person located within a public right-of-way must be relocated because of paving, road construction or road reconstruction, sewer construction or sewer reconstruction, or the construction or reconstruction of public drainage systems or similar public works or the construction or reconstruction of the facilities of any City-owned utility, such relocation, at the written request of the City, shall be completed by the owner of such facilities at the owner's cost. The City shall upon request of any person holding a franchise, license or lease, review

any plans for the construction of facilities, fixtures and equipment within the public right-of-way and advise the person of any conflict such construction may have with planned or anticipated public improvements, but failure of the City to so advise such person will not relieve the owner of such facilities of its obligations under this chapter. Notwithstanding the foregoing, the City public works director may require placement of equipment or facilities belonging to any holder of a franchise, license or lease be limited to locations designated by the City public works director if such limitation is deemed by the public works director to be necessary to protect the integrity of use of present and future users of the public right-of-way or other public property.

115.05 INDEMNIFICATION AND BOND. The holder of any franchise, license or lease shall indemnify and hold the City harmless at all times during the term of the franchise, license or lease from and against all claims for injury or damage to any person or property, including payments under worker's compensation laws, caused by the construction, erection, operation or maintenance of its facilities, fixtures or equipment, or the negligence of its contractors or its employees. In case of any suit or action at law being commenced against the City, upon any claim for damage arising out of any loss, injury or damage claimed to have been caused by any installation, improvement, obstruction or excavation made or left in, under or upon such street, sidewalk, alley or public place by the holder of a franchise, license or lease, its agents, contractors or employees, upon being notified in writing by the City of such action or proceeding, the holder of said franchise, license or lease shall appear and make proper defense thereto at the expense of the holder of the franchise, license or lease; and if any judgment or decree shall in any such case be rendered against the City therein, the holder of said franchise, license or lease shall assume, pay and satisfy such judgment or decree, with the cost thereof. Immediately upon issuance of the franchise, license or lease, the holder of the franchise, license or lease shall purchase general liability insurance. The amount of insurance shall be a minimum of \$1,000,000 with a maximum deductible of \$5,000. The holder of the franchise, license or lease shall file with the Clerk a certificate of insurance which clearly discloses on its face coverage in conformity with these requirements. Upon request of the City, the holder of the franchise, license or lease shall submit a certified copy of the policy.

115.06 REGULATION BY THE CITY. The City reserves the right to make reasonable general regulations for the use of streets and other public property which unless otherwise specifically provided shall apply to any holder of a franchise, license or lease.

115.07 CONSTRUCTION AND EXCAVATION BY HOLDERS. A written permit will be obtained from the Clerk whenever it becomes necessary for the holder of any franchise, license or lease to excavate in streets or public grounds of the City. Such permits shall state a particular part or point of the street where the excavation is to be made and the length of time in which such permit shall authorize the work to be done. An exception to a requirement for a permit shall be made in cases of emergency involving public safety, in which case a permit will be obtained at the earliest opportunity after the work has started. In making excavations in the streets, the holder of any franchise, license or lease shall proceed with such work as to cause the least possible inconvenience to the public. The holder of any franchise, license or lease shall properly protect, according to safety standards generally accepted at the time of placement, all excavations and obstructions by proper placement of shoring, surface plates, barricades, warning lights and such other or additional devices as circumstances may warrant. Immediately after use, any trenches for excavations which the holder of a franchise, license or lease has opened shall be filled. However, no trench or excavation in the streets shall be filled or covered without giving the City the right to inspect the same. The holder of the franchise, license or lease shall provide the City with notice at least twenty-four (24) hours prior to the

time when inspection of backfill is desired. All backfilling in streets will be according to City specifications. Temporary street surfacing will be placed in such excavations as soon as the same has been backfilled. Pavements, sidewalks, curbs and gutters or other portions of streets and public places opened, disturbed or damaged shall be promptly restored and replaced with like materials at the expense of the holder of a franchise, license or lease and left in as good condition as before the opening, disturbance or damage occurred. In the event like replacement materials are not available, the holder of the franchise, license or lease shall notify the Clerk who must approve the use of any alternate materials. In the event that the holder of a franchise, license or lease fails to comply with the provision of this section, after having been given reasonable notice, the City may do such works as may be needed to properly repair such pavements, sidewalks, curbs and gutters or other portions of streets and public places and the cost thereof shall be repaid to the City by the holder of the franchise, license or lease. In cases where a cut or disturbance is made in a section of street paving or sidewalks, but causes greater disturbance than to just the area cut, rather than replace only the area cut, the holder of a franchise, license or lease shall replace that area as may be ordered by the Clerk which in no event shall exceed the panel or panels disturbed.

115.08 CITY CONSTRUCTION AND PAVING. Whenever the City shall pave or repave any street or shall change the grade line of any street or public place or shall construct or reconstruct any conduit, water main service or water connection, sewer or other City-owned public works or City-owned utility, it shall be the duty of the holder of any franchise, license or lease, when so ordered by the City, to relocate its service lines and other property in the streets or other public places at its own expense so as to conform to the established grade or line of such street or public place and so as not to interfere with the public improvements so constructed or reconstructed. In the case of other public improvements, including but not limited to urban renewal projects, the City may require the holder of a franchise, license or lease to relocate its poles, service lines and appurtenances in the streets at the owner's expense. The City may at its discretion assign personnel for inspection of excavation and related work being performed by the holder of a franchise, license or lease. Should the holder of the franchise, license or lease fail or refuse to do and perform the things provided in this section, the City may, after reasonable notice, perform the work and charge the expense thereof to the holder of the franchise, license or lease and the holder of the franchise, license or lease shall promptly pay said charges.

115.09 DESIGN NOTICE TO CITY. The holder of a franchise, license or lease shall promptly, upon request, furnish the Council a detailed map or maps of its distribution system both within the City limits and the area within two miles surrounding the City unless that area is within another City. The holder of a franchise, license or lease shall thereafter update the map or maps at least annually or upon request, showing all subsequent additions or deletions to the distribution system. Prior to any excavation by the City or its agents, a representative must contact the holder of any franchise, license or lease regarding current information on the location of underground lines or facilities in the area concerned. The obligation to contact the holder of a franchise, license or lease under this section shall be satisfied if contact is made with the corporation organized pursuant to Code of Iowa Chapter 480 or an entity with a similar function utilized by both the City and the Company, currently the Iowa One Call System.

115.10 ABOVE-GROUND CABLES, WIRES, CONDUITS AND POLES. All cables, wires, and conduits shall be placed underground except where above-ground connection to buildings or other locations above ground is reasonably necessary. Such above-ground connection shall be by means of poles located, as far as reasonably practical, within alleys.

No such poles shall be installed or erected until the Council has approved the proposed location, construction and pole heights. The holder of the franchise, license or lease shall have authority to trim trees upon and overhanging streets, alleys, sidewalks and public places of the City so as to prevent the branches of such trees from coming in contact with the wires and cables. All tree trimming is to be done under the direction of the City and at the expense of the holder of the franchise, license or lease.

115.11 ASSIGNMENT. No sale or assignment of any franchise, license or lease of the use of the public right-of-way or other public property shall be effective until it is approved by the Council and until the holder thereof has filed in the office of the Clerk written notice of the proposed sale, transfer, disposition or assignment, such notice to clearly summarize the proposed procedure and the terms and conditions thereof. Such approval by the City shall not be unreasonably withheld. The proposed vendee, assignee or lessee shall similarly file an instrument, duly executed, reciting such proposal, accepting the terms of the franchise, license or lease and agreeing to perform all of the conditions thereof.

115.12 NO PROPERTY RIGHT. Nothing in this chapter shall grant to the franchisee, licensee or lessee any right of property in the City owned property, nor shall the City be compelled to maintain any of its property any longer than or in any fashion other than in the City's judgment, its own business or needs require.

115.13 FORFEITURE. The violation of any material portion of a franchise, license or lease by the holder thereof or its successors or assigns or its failure promptly to perform any of the provisions of this chapter shall be cause for forfeiture of said franchise, license or lease and the termination of all rights thereunder. Such forfeiture shall be accomplished by ordinance of the City after written notice to the holder thereof and a continuation of the violation, failure or default specified on the notice for at least thirty (30) days from the date the notice was served.

115.14 APPLICATION. This chapter shall apply to all franchises, licenses or leases and easements granted by the City, including all existing franchises, licenses or leases and easements.

115.15 HOME RULE. This chapter is intended to be and shall be construed as consistent with the reservation of local authority contained in the 25th Amendment to the Iowa Constitution granting cities Home Rule powers. To such end, any limitation on the power of the City contained herein is to be strictly construed and the City reserves to itself the right to exercise all power and authority to regulate and control its local affairs and all ordinances and regulations of the City shall be enforceable against the holder of any franchise, license or lease.

115.16 NEW TECHNOLOGIES. Should, within the term of any franchise, license or lease, developments within the field for which the grant was made offer to the holder thereof the opportunity to effectively, efficiently and economically serve its customers through use of a substance or material other than those for which the grant was originally made, then the holder of the franchise, license or lease may petition the Council, which, with such requirements or limitation as it deems necessary to protect public health, safety and welfare, may allow the use of such substances under the terms and conditions of the franchise, license or lease.

If necessary, such notice shall also require the building, structure, or portion thereof to be vacated forthwith and not reoccupied until the required repairs and improvements are completed, inspected and approved by the enforcement officer.

He/she shall order discontinuance of illegal use of land, buildings, or structures; removal of illegal buildings or structures or of illegal additions, alterations or structural changes; discontinuance of any illegal work being done; or shall take any other action authorized by this chapter or to ensure compliance with or to prevent violation of its provisions.

1. Construction Permits Required. No building or other structure shall be erected, constructed, reconstructed or structurally altered until an inspection has been made and a construction permit has been issued therefor, by the Building Inspector/Zoning Administrator. No construction permit shall be issued by the Zoning Administrator except in conformity with the provisions of this chapter, unless he/she receives a written order from the Board of Adjustment in the form of an administrative review, special exception or variance as provided by this chapter. A construction permit shall not be required for an alteration, repair or improvement which does not change the dimensional outline of the building being so altered, repaired or improved. The original application, similarly marked, shall be retained by the Zoning Administrator.

3. Posting of Construction Permits. A construction permit shall be posted by the applicant on the property in question prior to the start of construction. It shall be placed so that it is readable from the public street and shall remain in place during the construction period. If a construction permit is not obtained and properly posted prior

to construction, construction must cease until such permit is granted. The usual permit fee will be doubled and other penalties may be levied.

4. Expiration of Construction Permit.

A. If the work described in any construction permit has not begun with 180 days from the date of issuance, said permit shall expire; it shall be canceled by the Zoning Administrator; and written notice thereof shall be given to the persons affected.

B. If the work described in any construction permit has not been substantially completed within two years of the date of issuance thereof, said permit shall expire and be canceled by the Zoning Administrator and written notice thereof shall be given to the persons affected, together with notice that further work as described in the canceled permit shall not proceed unless and until a new construction permit has been obtained.

No building erected or portion thereof structurally altered shall be occupied or used except as provided in Section 165.07(1) and (2), and no change of use shall be made in any building or part thereof until a certificate of occupancy has been issued by the Building Inspector/Zoning Administrator. In case any building or structure is erected, constructed, reconstructed, altered, repaired, converted or maintained or any building, structure or land is used in violation of this chapter, the Building Inspector/Zoning Administrator, in addition to other remedies, shall institute any proper action or proceedings in the name of the City to prevent such unlawful erection, construction, reconstruction, alteration, repair, conversion, maintenance or use to restrain, correct or abate such violation, to prevent the occupancy of said building, structure or land, or to prevent any legal act, conduct, business or use in or about the said premises.

165.15 BOARD OF ADJUSTMENT CREATED. A Board of Adjustment is hereby established which shall consist of five (5) members. The term of office of the members of the Board of Adjustment and the manner of their appointment shall be as provided by statute.

The presence of three (3) members shall be necessary to constitute a quorum.

Appeals to the Board may be filed by any person aggrieved or by an officer, department, board or bureau of the City affected by any decision of the Building Inspector/Zoning Administrator. Such appeal shall be filed within ten (10) days from the time of decision, by filing with the Clerk a notice of appeal specifying the grounds thereof. The Building Inspector/Zoning Administrator shall transmit to the Board all papers constituting the record for the decision being appealed. A filed appeal stays all proceedings in regard to the decision being appealed, unless the Building Inspector/Zoning Administrator certifies to the Board that, by reason of the facts stated in the certificate, a stay would, in the opinion of the Building Inspector/Zoning Administrator, cause imminent peril to life or property. In such case, proceedings shall not be stayed other than by a restraining order which may be granted by the Board or by a court of record on application, on notice to the Building Inspector/Zoning Administrator, and on due cause shown. The Board shall fix a reasonable time for hearing on the appeal, give public notice thereof, as well as due notice to the parties in interest, and decide the same within a reasonable time. At the hearing, any party may appear in person or by agent or by attorney. Before an appeal is filed with the Clerk the appellant shall pay a fee as set by resolution of the Council.

165.18 JURISDICTION AND POWERS OF THE BOARD. The Board shall have the following powers and it shall be the duty of the Board:

1. To hear and decide appeals where it is alleged there is error in any order, requirements, decisions or determination made by the Building Inspector/Zoning Administrator in the enforcement of this chapter.
2. To grant a variation in the regulations when a property owner can show that his or her property was acquired in good faith, and where by reason of exceptional narrowness, shallowness or shape of a specific piece of property on record at the time of the enactment of this chapter or where by reason of exceptional topographical conditions or other extraordinary or exceptional situation or condition of a specific piece of property, the strict application of the terms of this chapter would result in peculiar and exceptional practical difficulties and particular hardship upon the owner of the property and amounts to a practical confiscation of the property as distinguished from a mere inconvenience to the owner; provided the variation can be granted without substantially impairing the general purposes and intent of the comprehensive plan as established by the regulations and plan contained in this chapter.
3. To permit the following exceptions to the district regulations set forth in this chapter, provided all exceptions shall by their design, construction and operation

adequately safeguard the health, safety and welfare of the occupants of adjoining and surrounding property, shall not increase congestion in the public streets, shall not increase public danger of fire and safety, and shall not diminish or impair established property values in surrounding areas:

A. To permit erection and use of a building or the use of premises or vary the height and area regulations in any location for a public service corporation for public utility purposes or for purposes of public communication, which the Board determines is reasonably necessary for the public convenience or welfare.

B. To permit the extension of a district where the boundary line of a district divides a lot in a single ownership as shown of record or by existing contract of purchase at the time of the enactment of this chapter, but in no case shall such extension of the district boundary line exceed forty (40) feet in any direction.

In exercising the above mentioned powers, the Board may, in conformity with the provisions of law, reverse or affirm, wholly or partly, or may modify the order, requirement, decision or determination appealed from, and may make such order, requirement, decision or determination as it believes proper, and to that end shall have all the powers of the Building Inspector/Zoning Administrator. The concurring vote of three (3) of the members of the Board shall be necessary to reverse any order, requirement, decision or determination of the Building Inspector/Zoning Administrator, or to decide in favor of the applicant on any matter upon which it is required to pass under this chapter; provided, however, that the action of the Board shall not become effective until after the resolution of the Board, setting forth the full reason for its decision and the vote of each member participating therein, has been spread upon the minutes. Such resolution, immediately following the Board's final decision shall be filed in the office of the Board, and shall be open to public inspection. Every variation and exception granted or denied by the Board shall be supported by written testimony or evidence submitted in connection therewith.

165.19 AMENDMENTS. The Council may, on its own action or on petition, after public notice and hearing as provided by law and after report of the Planning and Zoning Commission, amend, supplement, or change the boundaries or regulations herein or subsequently established, and such amendment shall not become effective except by the favorable vote of a majority of all the members of the Council. Whenever any person desires that any amendment, or change, be made in this chapter, including the text and/or map, as to any property in the City, and there shall be presented to the Council a petition requesting such change or amendment and clearly describing the property and its boundaries as to which the change or amendment is desired, duly signed by the owners of sixty percent (60%) of the area of all real estate included within the boundaries of said tract as described in said petition, and in addition, duly signed by the owners of sixty percent (60%) of the area of all real estate lying outside of said tract but within two hundred fifty (250) feet of the boundaries thereof, and intervening streets and alleys not be included in computing such 250 feet, it shall be the duty of the Council to vote upon such petition within ninety (90) days after the filing of such petition with the Clerk. In case the proposed amendment, supplement or change be disapproved by the Commission, or a protest be presented duly signed by the owners of twenty percent (20%) or more either of the area of the lots included in such proposed change, or of those immediately adjacent, extending the depth or width of one lot or not to exceed two hundred (200) feet there from, such amendment shall not become effective except by the favorable vote of at least four-fifths (4/5) of the members of the Council. Whenever any

petition for any amendment, supplement or change of the zoning or regulations herein contained or subsequently established shall have been denied by the Council, then no new petition covering the same property or the same and additional property shall be filed with or considered by the Council until one (1) year shall have elapsed from the date of the filing of the first petition. Before any action shall be taken as provided in this section, the party proposing or recommending a change in the district regulations or district boundaries shall pay a filing fee to the Clerk to cover the approximate costs of this procedure, and under no circumstances shall said sum or any part thereof be refunded for failure of said amendment to be enacted into law. The amount of the filing fee will be set by resolution of the Council.

165.20 PENALTY. Anyone, including building contractors and all persons engaged in construction and/or alteration of homes and other buildings, violating any of the provisions of this chapter shall be in violation of this Code of Ordinances, and each day that a violation is permitted to exist shall constitute a separate offense.

165.21 CONDITIONAL USES.

1. Nature and Purpose. The formulation and enactment of comprehensive zoning regulations is based on the division of the entire City into districts, in each of which are permitted specified uses that are mutually compatible. In addition to such permitted compatible uses, however, it is recognized that there are other uses, which it may be necessary or desirable to allow in a given district, but which, because of their potential influence upon neighboring uses or public facilities, need to be carefully regulated with respect to location or operation for the protection of the community. Such uses are classified in this chapter as “conditional uses” and may include the following:

A. Uses either municipally operated or operated by publicly regulated utilities, or uses traditionally affected by public interest.

B. Uses entirely private in character which, because of their peculiar locational need, the nature of the service they offer to the public and their possible damaging influence on the neighborhood, may have to be established in a district in which they cannot reasonably be allowed as an unrestricted permitted use under the zoning regulations.

C. Non-conforming uses which as conditional uses can be made more compatible with their surroundings.

D. Uses of a temporary nature, serving a particular need within definable time limits.

2. Application for Conditional Use. An application for a conditional use shall be filed with the City Clerk upon such form and accompanied by such information as shall be established from time to time by the Board of Adjustment. The City Clerk shall forward to the Board without delay each such application received by the City Clerk.

3. Authorization - Revocation. Conditional uses shall be authorized by a conditional use permit granted by the Board of Adjustment, after the Board shall have noticed and held a public hearing and prepared and filed a finding of fact, thereon. Such permit shall set forth any restrictions or conditions imposed in the granting thereof. Failure of the permittee to comply with such conditions or restrictions shall be deemed cause for the revocation of such permit.

4. Criteria for Granting. No conditional use shall be granted by the Board of Adjustment unless such use:
 - A. Is so designed, located and proposed to be operated that the public health, safety and welfare will be protected.
 - B. Is so designed, located and proposed to be operated that it is compatible with its surroundings.
 - C. Will not cause substantial injury to the value of other property in the neighborhood in which it is to be located.
 - D. Shall conform to the applicable regulations of, and be compatible with the essential character of the district in which it is located.
5. Conditions Imposed Upon Grant. The Board of Adjustment may provide such conditions or restrictions upon the construction, location and operation of a conditional use, including but not limited to provisions for the protection of adjacent property, the expiration of such conditional use after a specified period of time, off-street parking and loading, as shall be deemed necessary to secure the general objectives of this chapter and to reduce injury to the value of property in the neighborhood.
6. Transferability. In the event property subject to conditional use permit is sold, transferred or conveyed, the conditional use permit will pass to the transferee subject to the same terms and conditions provided in the conditional use permit. In the event the transferee intends to materially change any use subject to a condition, the transferee must apply to the Board of Adjustment for a new conditional permit before such a change is made.
7. Authorized Improvements. The Board of Adjustment may authorize any expansion of the size of the building by up to 10% of the existing or authorized building approved by a conditional use permit. Provided, however, that the expansion is not in violation of the provisions of the original conditional use permit.
8. Fees for Applications for Conditional Uses. Any application for a conditional use filed by, or on behalf of, the owner or owners of the property affected, shall be accompanied by a fee as determined by City Council resolution.
9. Notice of Hearing. An application for conditional use permit shall be filed with the Board of Adjustment. The application shall be in such form and shall contain such information as the Board of Adjustment shall, from time to time, prescribe by general rule. The Board of Adjustment shall meet at the call of the chairperson and at other such times as the Board of Adjustment may determine. The notice of the time and place of such meetings shall be published two times, once not less than seven (7) nor more than fourteen (14) and once not less than fourteen (14) nor more than twenty (20) days before the date set for the meeting of the Board of Adjustment. Notice shall also be mailed to all property owners within 400 feet of the outside boundaries of the subject property at least fourteen (14) days prior to the meeting date. Notice shall also be posted prominently in a location on the site at least two weeks in advance of the hearing. Such notices shall contain a statement of the particular purpose of such meeting and a brief description of the location of the property under consideration at such meeting. All meetings of the Board of Adjustment shall be open to the public.

170.01 PURPOSE. The purpose of this chapter is to establish minimum standards for the design, development and improvement of all new subdivisions and resubdivisions so that existing development will be protected and so that adequate provisions are made for public services and to promote the health, safety and general welfare.

170.02 DEFINITIONS. For use in this chapter, the following words and terms are defined:

1. “Building line” means a line between which and an abutting street or public alley no building or structure may be erected.
2. “Commission” means the Planning and Zoning Commission of the City.
3. “Metes and bounds” means the method used to describe a tract of land intended to be used for dwelling or other purposes, so that it can be recorded in the County Recorder’s office, as contrasted with the description of a part of a properly approved and recorded subdivision plat by the lot and block number.
4. “Plat” means a map, drawing or chart of a subdivision.
5. “Subdivision” means the division of a lot, tract or parcel of land into three (3) or more lots, plots, sites or other divisions of land, for the purpose of either immediate or future sale or of building development. It also includes resubdivision of land or lots.

170.03 PLAT APPROVAL AND ACCEPTANCE. Procedures for plat approval and acceptance are as follows:

1. Preliminary Approval by Commission. Whenever the owner of any tract or parcel of land within the jurisdiction of this chapter wishes to subdivide or plat the same, said person shall file a preliminary plat in triplicate, together with any other required information, with the Clerk. Two (2) copies of said plat and other information shall be referred by the Clerk to the Commission for its preliminary study and approval. Such preliminary plat shall contain such information and data as outlined in Section 170.04(1).
2. Study of Preliminary Plat by the Commission. The Commission shall study the preliminary plat and other information submitted to see if it conforms with the requirements of this chapter and shall approve or reject such plat within thirty (30) days after the date of the submission thereof to the Commission. The approval of the preliminary plat constitutes authorization to proceed with the preparation of the final plat, but the final plat must be submitted to the Commission and the Council for approval as provided in the following section.

3. Final Plat of Subdivision. The subdivider shall also file with the Clerk for submission to the Commission, for its approval or rejection, the final plat of the subdivision which shall contain the data and information outlined in Section 170.04(2) of this chapter. If the Commission approves the final plat, such approval and the date thereof shall be noted on the plat over the signature of the Chairperson of the Commission.
4. Approval of the Council. After the approval of the final plat and plan by the Commission, it shall be submitted to the Council for final approval and for acceptance of all streets, alleys, easements, parks or other areas preserved for or dedicated to the public.
5. Approval by the Council After the Disapproval of the Commission. If the Commission does not approve the final plat of the subdivision, the Council may approve said plat and accept the streets, alleys, easements, parks or other areas preserved for or dedicated to the public by said plat, only by a four-fifths (4/5) vote of the entire membership of the Council.
6. Filing in Office of Clerk. After approval of the final plat by the Council, two (2) copies of such final plat shall be filed in the office of the Clerk.

170.04 INFORMATION REQUIRED ON PLATS. Plat information requirements are as follows:

1. Preliminary Plat. In seeking to subdivide land, the owner shall submit two (2) copies of a preliminary plat to the Commission before submission of the final plat. The preliminary plat shall be drawn to scale and shall show the proposed location and width of streets, lot lines, building lines and areas of each proposed lot. The plat shall also show surrounding streets, lots, water courses, sewers and water mains. The scale of such preliminary plat shall not be less than one inch to one hundred feet (1" = 100'). Wherever the land is so rolling or rugged that the preliminary location and grades of streets and sewers cannot be properly considered without the aid of a topographical map, the Commission may require the developer to provide a topographical map of the property showing contour intervals of not less than five (5) feet. Any plat not containing all information specified above shall not be considered by the Commission. A filing fee shall be required to cover processing costs. The amount of the filing fee will be set by resolution of the Council.
2. Final Plat. Any final plat that does not show all information specified shall not be considered by the Commission. A filing fee shall be required to cover processing costs. The amount of the filing fee will be set by resolution of the Council. The final plat map on a reproducible original (Mylar) and two (2) prints thereof shall be submitted to the Commission. It shall show:
 - A. The boundaries of the property.
 - B. The lines of all proposed streets and alleys, with their widths and names, and any other areas intended to be dedicated to public use; the names of the streets shall be a continuation of the existing method of naming streets in the City.
 - C. The lines of adjoining streets and alleys, with their widths and names.
 - D. All lot lines, building lines, and easements, with figures showing their dimensions.

- E. All dimensions, both linear and angular, necessary for locating boundaries of the subdivided area or of the lots, streets, alleys, easements and building line setbacks, and any other similar public or private uses. The linear dimensions shall be expressed in feet and decimals of a foot.
- F. Radii, arcs, and chords, points of tangency, central angles for all circilinear streets and radii for all rounded corners.
- G. All monuments, together with their descriptions.
- H. Title and description of property subdivided, showing its location and extent, points of compass, scale of plan, classification of property under zoning law, and name of sub-divider and of registered land surveyor staking the lots.
- I. Profiles may be required of any streets.
- J. Any private restrictions shall be shown on the plat or reference made to them thereon; and plats shall contain proper acknowledgments of owners and mortgagees accepting said platting and restrictions.

170.05 ATTACHMENTS TO PLATS. Final plats shall be accompanied by the following documents:

1. A statement by the owner and spouse, if any, that the subdivision is with the owners' free consent and is in accordance with the desire of the owners. This statement must be signed and acknowledged by the owner and spouse before some officer authorized to take the acknowledgments of deeds.
2. A statement from the mortgage holders or lienholders, if any, that the plat is prepared with their free consent and in accordance with their desire, signed and acknowledged before an officer authorized to take the acknowledgment of deeds.
3. An opinion by an attorney-at-law who has examined the abstract of title of the land being platted. The opinion shall state the names of the proprietors and holders of mortgages, liens or other encumbrances on the land being platted and shall note the encumbrances, along with any bonds securing the encumbrances.
4. Resolution and certificate for approval by the Council and signature of the Mayor and Clerk.
5. Certificate of the County Treasurer that the land is free from certified taxes and certified special assessments or that the land is free from certified taxes and that the certified special assessments are secured by bond in compliance with Section 354.12 of the Code of Iowa.

170.06 MINIMUM STANDARDS OF DESIGN AND DEVELOPMENT. No preliminary or final plat of a subdivision shall be approved by either the Commission or by the Council unless it conforms to the minimum standards and requirements contained in this chapter.

1. Acre Subdivision. Whenever the area is divided into lots containing one (1) or more acres and there are indications that such lots will eventually be subdivided into small building plots, consideration must be given to the street and lot arrangement of the original subdivision so that additional streets can be opened which will permit a logical arrangement of smaller lots.

2. Relation to Adjoining Street System. The arrangement of streets in new subdivisions shall make provisions for the continuation of the principal existing streets in adjoining additions (or their proper projections where adjoining property is not subdivided) insofar as they may be necessary for public requirements. The width of such streets in new subdivisions shall not be less than the minimum street widths established herein. The street and alley arrangement must also be such as to cause no hardship to owners of adjoining property when they plat their own land and seek to provide for convenient access to it. Whenever there exists a dedicated or platted half-street or alley adjacent to the tract to be subdivided, the other half of the street or alley shall be platted.
3. Street Right-of-way Width. The minimum width of street right-of-ways shall be sixty (60) feet.
4. Street Width. The minimum width of streets shall be twenty (20) feet, except in those cases where topographical conditions, existing streets or special conditions make a street of less width more suitable. Under these conditions the Commission may waive the minimum requirements.
5. Street Jogs at Intersections. At street intersections, street jogs with centerline offsets of less than one hundred twenty-five (125) feet shall be prohibited, except where topographic or other physical conditions make such jogs unavoidable.
6. Street Angles at Intersections. Streets shall intersect as nearly at right angles as possible, and no street shall intersect any other street at an angle less than sixty (60) degrees.
7. Dead-end Streets. Dead-end streets are prohibited except where a street is planned to continue past the subdivider's property. A dead-end street shall terminate in a temporary circular right-of-way with a minimum diameter of ninety (90) feet, unless the Commission approves an equally safe and convenient space. No dead-end street shall be longer than six hundred (600) feet. Cul-de-sacs shall not exceed six hundred (600) feet in length and shall be provided with a turnaround with a minimum right-of-way diameter of one hundred twenty (120) feet. The length of the cul-de-sac shall be measured along its centerline from the turnaround to the intersecting point.
8. Alleys. The minimum width of an alley in a residential block shall be fifteen (15) feet. (Alleys are not recommended for residential districts except under unusual condition.) Alleys will be required in the rear of all business lots and shall be at least twenty (20) feet wide.
9. Easements Where There Are No Alleys. Where alleys are not provided, easements of not less than five (5) feet in width shall be provided on each side of all rear lot lines and on those side lines where necessary for poles, wires, conduits, storm and sanitary sewers, gas, water and heat mains. Easements of greater width may be required along lines or across lots where necessary for the extension of main sewers and similar utilities.
10. Length of Blocks. No blocks shall be longer than one thousand (1,000) feet between street lines. Blocks over seven hundred fifty (750) feet in length shall provide a crosswalk near the center of the block. The right-of-way through such blocks shall not be less than ten (10) feet in width.
11. Width of Blocks. The width of blocks shall not be less than two hundred (200) feet and not more than three hundred (300) feet, except that when such

requirement would entail unusual and substantial difficulties or hardship or when it is desired to provide a development containing large residential lots, the Commission and the Council may modify such requirements and allow the subdivider to plat blocks of other widths.

12. Lot Lines. All side lines of lots shall be at right angles to straight street lines or radial to curved street lines, unless a variation of this rule will give a better street and lot plan. Lots with double frontage shall be avoided.

13. Size and Shape of Lots. The minimum dimensions for lots shall be sixty-six (66) feet for width and one hundred (100) feet for depth, and in no case shall a lot that is to be used for residential purposes contain less area than is required by the lot area regulation of the zoning district in which the property is located. In laying out an arrangement of lots, the subdivider should, whenever possible, arrange for wide, shallow lots and avoid long, narrow lots.

14. Corner Lots. All corner lots shall have extra width sufficient to permit the maintenance of building lines on both the front end and side streets as required by any applicable zoning regulations.

15. Building Lines. Building lines shall be shown on all lots intended for residential use of any character, and on commercial lots immediately adjoining residential areas. Such building lines shall not be less than required by any applicable zoning regulations.

16. Character of Development. The Commission shall confer with the subdivider regarding the type and character of development that will be permitted in the subdivision, and may require that certain minimum deed restrictions be placed upon the property, which restrictions would prevent such construction which would clearly depreciate the character and value of adjoining property. The Commission may also require that the deed restrictions provide for the creation of a property owners' association which would be responsible for the enforcement of the restrictions and for the protection and improvement of the general welfare of the subdivision.

17. Improvements. Before any portion of the final plat of any subdivision is finally approved for recording, the subdivider shall make and install improvements as required in subsections A through G of this subsection, in that portion of the plat which is to be finally recorded. In lieu of final completion of the minimum improvements before the plat is finally approved, the subdivider may post a bond, approved by the City Attorney, with the City, which bond will insure to the City that the improvements will be completed by the subdivider within one year after final approval of the plat. The amount of the bond shall be not less than the estimated cost of the improvements, and the amount of the estimate must be approved by a registered engineer. If the improvements are not completed within the specified time, the Council may use the bond or any necessary portion thereof to complete the same.

A. Grading and Improving Streets. The subdivider shall grade and improve all streets and alleys (if any) within the subdivision. The surfacing of such streets and alleys shall be of such character as is suitable for the expected traffic and in harmony with similar improvements in the surrounding areas, but in no case shall it consist of less than a minimum granular base of six (6) inches of crushed rock plus seal coat. The street design shall be certified by a registered professional engineer.

B. Grading and Improving Lots. The subdivider shall, whenever necessary, grade any portion of the property subdivided into lots so that each lot that is to be offered for sale will be usable and suitable for the erection of residential property or any structure thereon.

C. The subdivider shall install sanitary sewers and provide a connection for each lot. Such installations shall be in accordance with good engineering practices, shall be shown on plans drawn by a registered engineer and shall meet the sanitation provisions of the City, County, State Health Department and the State Department of Natural Resources.

D. Storm Sewers. Where deemed necessary by the Commission, the developer shall install a storm sewer adequate to serve the platted area. The design of the storm sewer system shall be certified by a registered professional engineer.

E. Water Mains. The subdivider shall install water mains and fire hydrants in the subdivided area. Such installations shall be in accordance with the standards and specifications of the City Water Department and the State Department of Natural Resources, and fire hydrant locations should meet the approval of the City Water Department. The design of the water mains shall be certified by a registered professional engineer.

F. Other Improvements. It is also desirable to install other improvements such as sidewalks, electric lines, street lights, gas mains and similar facilities in any subdivision. Whenever the Commission deems it necessary, they may require that such improvements shall be installed before the plat is approved.

170.07 ENFORCEMENT. Enforcement provisions are as follows:

1. Filing of Plat. No plat of any subdivision shall be entitled to record in the County Recorder's office or have any validity until it has been approved in the manner prescribed herein.

2. Building Permits. The Building Inspector/Zoning Administrator shall not issue building or repair permits for any structure located on a lot in any subdivision, the plat of which has been prepared after the date of the adoption of the ordinance codified in this chapter but which has not been approved in accordance with the provisions contained herein. An original tract may be divided into two (2) lots or tracts and not be subject to the provisions of this section. If an original tract is divided into more than two (2) lots or tracts after the date of the adoption of such ordinance, no building or repair permits shall be issued for any structure located or proposed to be located on any of such tracts or lots, unless or until a plat as required by this chapter has been fully approved by the Council.

3. Public Improvements. The Council shall not permit any public improvement over which it has any control to be made or any money expended for improvements in any area that has been subdivided or upon any street that has been platted after the date of the adoption of the ordinance codified in this chapter unless such subdivision or street has been approved in accordance with the provisions contained herein.

170.08 VARIATIONS. Whenever the tract to be subdivided is of such unusual size or shape or is surrounded by such development or unusual conditions that the strict application of Section 170.06, subsections 2, 11, 12, 14 and 18 would result in real difficulties and

substantial hardships, the Commission may vary or modify such requirements so that the subdivider is allowed to develop the property in a reasonable manner, but at the same time the public welfare and interests of the City are protected and the general intent and spirit of this chapter are preserved.
